Summary

I am a determined, hard-working, and dedicated individual, committed to efficiently managing tasks as a strict timekeeper. My excellent communication skills make me a good speaker and negotiator. I have recently completed a 4-year bachelor's degree in Computer Science at the Murang’a University of Technology and am awaiting graduation.

As a Flutter developer, I excel in creating high-performance, cross-platform mobile applications using Dart and the Flutter framework. I have a proven ability to solve complex problems and deliver quality work under tight deadlines, with experience in building dynamic user interfaces and integrating RESTful APIs.

Experience

Goatmentor Technologies	October 2023 - July 2025
Junior Developer	Remote

🔗 <https://goatmentor.tech/>

Completed a 6-month intensive Flutter training and earned a promotion, delivering mobile solutions that improved app performance by 30%.

Developed and maintained scalable mobile applications using Flutter, streamlining task execution for improved functionality.

Implemented comprehensive unit tests that secured 95% test coverage, enhancing application reliability.

Elecktracka Africka LTD	May 2023 - May 2024
Web Developer	Nairobi, Kenya

🔗 <https://www.elecktracka.com/home/>

As a web developer, I had the opportunity to work on the Elecktracka system, which is a mainly a visitors’ management system among other things, where I developed several key features for the website.

I also played an essential role in maintaining the website's performance and functionality. This involved regular monitoring, debugging, and fixing any issues or bugs that arose.

Diamond Trust Bank Limited	August 2022 - September 2022
Intern	Nairobi, Kenya

Internship programme at Diamond Trues Bank limited working in the front office desk with key focus being client service.

During my term in the bank my responsibilities included, answering customer calls, and where appropriate directing inquiries to other departments/personnel, account opening, transactions reporting/processing and maintaining customer records.

The role enabled me to hone my communication skills, attention to detail, and the ability to work effectively in a fast-paced environment.

Kenya Power & Lighting Company	May 2022 - July 2022
Intern	Nairobi, Kenya

I learned about the various systems that are used by the organization to conduct its activities successfully.

Working in its IT department game me the opportunity to apply theoretical concepts learnt during my degree into real life problems and tackle them effectively.

In conclusion, working in KPLC made it possible for me to get an idea of the real- world working environment where I added to my skillset some skills and virtues.

Education

Murang'a University of Technology	September 2019 - April 2023
BSc. Computer Science	Undergraduate

Anestar Boys Highschool-Lanet	February 2015 - November 2018
52	Secondary
