GitHub: github.com/Njau-dev | Portfolio: njau-dev-portfolio.netlify.app

Professional Summary

Full-stack developer with a background in automotive engineering and sales, passionate about building technology solutions and known for delivering projects under pressure and solving complex problems. Specializing in Laravel, React, Flask, and PostgreSQL, with experience deploying applications to the cloud. Eager to take on multiple roles and responsibilities in dynamic environments.

Experience

MAY 2025 – PRESENT

Team Lead & Full-Stack Developer / Lixnet Technologies • (Remote) Nairobi, Kenya

- Lead a sub-team in building and deploying **version 1** of a Human Resource & Payroll system for Kenyan businesses.
- Took ownership of the **entire payroll module**, fixing 100+ legacy bugs, updating it to **Kenya's 2025 payroll standards** (Housing Levy, NHIF, NSSF), and implementing a centralized payroll calculator.
- Delivered a production-ready product that had stalled for years, enabling company-wide go-live and client onboarding.
- Developing core system components using the Laravel framework, Blade templating, and MySQL database.

AUG 2024 – PRESENT

Founder & Full-Stack Developer / Phone Home Kenya (phonehome.co.ke) • Nairobi, Kenya

- Designed, developed, and deployed a full-featured e-commerce platform for electronics with **React, Flask, PostgreSQL**, and Cloudinary.
- Integrated M-Pesa API (Production Mode) for secure payments and uploaded 100+ product listings.

- Deployed on VPS with modern UI/UX and responsive design and used Cloudinary for efficient product image handling.

DEC 2024 – PRESENT

Co-Founder & Developer / AudioPine Solutions (audiopinesolutions.co.ke) • (Freelance)
Nairobi, Kenya

- Built and hosted the agency's website.
- Managed full-stack development from requirements gathering to deployment.
- Delivered 4+ client projects (websites & digital solutions).

FEB 2022 – FEB 2024

Sales Associate / Oppo Kenya • Nairobi, Kenya

- Consistently exceeded sales targets; improved upsell revenue by 15% through consultative sales.

JUNE 2021 – JAN 2022

Automotive Technician/ PROTO Gas Energy • Nairobi, Kenya

- Diagnosed and resolved mechanical issues using diagnostic tools, improving vehicle performance by 20% after installation of gas combustion systems.

Technical Skills

- **Front-end:** HTML5 • CSS3 • React • Tailwind CSS • TypeScript • Flutter
- **Back-end:** PHP/Laravel • Python/Flask • Node.js/Express
- **Databases:** MySQL • PostgreSQL • MongoDB
- **DevOps:** Git/GitHub • Cloud Deployment(VPS) • BackBlaze • Cloudinary
- **Others:** Payment Gateways (M-PesaAPI Integration) • Kenyan Tax Systems • HR/Payroll Architecture

Soft Skills

- Strong communication and collaboration abilities
- Leadership and initiative in remote, distributed team environments
- Effective problem-solving under pressure

Education

MAY 2024 - JUNE 2025

Full-Stack Software Developer / Institute of Software Technology • Westlands, Kenya

- Relevant Coursework: React, Node.js, REST APIs, Database Design, Php, Laravel, Vue js, Mobile App Development

SEP 2017 – JAN 2021

Diploma in Automotive Engineering / NIBS Technical College • Kiambu, Kenya

- Graduated: August 2021

Projects

- **Phone Home Kenya (Full-Stack E-Commerce):** React/Flask/PostgreSQL • M-Pesa integration • Cloud VPS deployment
- **Lixnet HR/Payroll System (Production):** Laravel/Blade/MySQL • Kenyan tax compliance engine • Legacy error resolution
- **Audiopine Agency Site:** Client acquisition platform • [Vue.js](#)
- **Client Websites:** Custom Builds for SMEs
