Personal Profile

I am a highly motivated IT graduate with expertise in full-stack development, cloud computing, and API integrations. I have hands-on experience with Java Spring Boot, Vue.js, PHP, MySQL, and AWS services. As an **AWS Certified Cloud Practitioner**, I understand cloud architecture, security, and scalable solution design.

Passionate about building efficient, user-friendly systems, I thrive in collaborative environments and adapt quickly to new technologies. My training in customer service and **Business Process Outsourcing (BPO)**—which includes customer support, technical assistance, and back-office operations—enhances my ability to communicate effectively and manage client expectations in tech-driven roles.

Objectives

- To grow professionally in roles that challenge my problem-solving abilities and allow me to deliver impactful technological solutions while embracing continuous learning.
- To integrate my expertise in IT and BPO skills, combining technology and customer service to achieve organizational goals.
- To work collaboratively in a dynamic team, driving efficiency and enhancing system functionality for impactful results.
- To leverage my technical skills and knowledge in Information Technology, cloud computing, and software development to contribute meaningfully to an innovative organization.

Work Experience

FREELANCE GRAPHIC DESIGNER

January 2023 – Present

Providing comprehensive graphic design services to small businesses and startups across Kenya, specializing in brand identity development and marketing materials.

Key Responsibilities:

- Designed custom logos and brand identity packages for businesses, ensuring unique visual representation that aligns with brand values
- Created promotional posters for events, product launches, and marketing campaigns, incorporating client feedback and brand guidelines
- Developed marketing collateral including flyers, brochures, business cards, and social media graphics
- Collaborated directly with business owners to understand their vision and translate concepts into compelling visual designs
- Managed multiple design projects simultaneously while meeting tight deadlines and budget constraints
- Provided design consultancy on brand positioning and visual communication strategies.

Skills Gained:

- Adobe Creative Suite (Photoshop, Illustrator, InDesign)
- Brand identity development and logo design
- Print and digital design optimization
- Client communication and project management
- Typography and color theory application

- Social media content creation and visual storytelling

KENYA DAIRY BOARD

January 2025 – April 2025

Undertook a three-month attachment at Kenya Dairy Board, where I was responsible for:

- System maintenance, ensuring smooth operation and performance of company IT systems.
- Hardware and software maintenance, including troubleshooting and upgrades.
- Resolving networking issues to enhance connectivity and system efficiency.

RESCUE LANE TOWING

November 2024 – February 2024

Developed a fully functional **towing service website** using **React (TypeScript)**, ensuring a responsive and user-friendly interface. Implemented **SEO best practices**, including metadata optimization and structured data, to improve search engine visibility across major towns in Kenya. Designed and managed a **scalable component-based architecture** with **Bootstrap**, improving code efficiency and maintainability. Integrated **dynamic blog pages** and optimized performance to enhance page load speed and user experience. Applied **modern UI/UX principles**, ensuring accessibility and smooth navigation across all devices.

Skills gained

- Frontend Development – Proficiency in React (TypeScript), Bootstrap, and component-driven UI design.
- SEO Optimization – Implementing metadata, structured data, and best practices for higher search engine rankings.
- Responsive Design – Creating mobile-first layouts for a seamless experience across all devices.
- Performance Optimization – Improving page load speed and minimizing unnecessary renders.
- Problem-Solving – Debugging UI/UX issues and enhancing user engagement.

FIRM UNITY SACCO

JULY 2024-SEPTEMBER 2024

Developed an interactive website for Firm Unity Sacco, implementing Vue.js for improved user experience, dynamic content updates, and form handling without full-page reloads. The onboarding process includes user registration, document submission, and guided setup to ensure a seamless experience for new members.

Skills gained

- Figma design
- HTML/CSS
- PHP
- MySQL
- Vue.js

SMART APPLICATIONS

MAY 2023-AUGUST 2024

Attached at the integrations team.

Undertook various projects on java spring-boot. This enabled me to gain an understanding on how the systems in the company work.

The main work of this team involved settling claims between hospitals and insurance companies through the smart systems.

Skills gained

- Java Spring-boot
- Postman API
- Swagger API

CERTIFICATIONS

BPO Contact Centre Work Training - Emobilis

22nd September - 15th October 2024

Undertook a three week training on becoming a call center agent. The skills I gained include:

Communication Skills

- Active listening techniques.
- Tone of voice and professional language.

- Verbal and non-verbal communication.
- Empathy and emotional intelligence.
- Handling different communication channels (phone, email, chat).

Handling Difficult Customers and Situations

- Strategies for de-escalating conflict.
- Managing irate or frustrated customers.
- Handling complaints with a positive outcome.
- Staying calm under pressure.

Time Management and Efficiency

- Prioritizing tasks and customer inquiries.
- Balancing speed and quality of service.
- Reducing call handling times without sacrificing quality.

AWS CLOUD PRACTITIONER TRAINEE - AWS RESTART PROGRAM

MAY 2024 – AUGUST 2024

- **Amazon S3 (Simple Storage Service):** Gained proficiency in setting up and managing S3 buckets, configuring bucket policies, and using S3 for scalable and secure object storage solutions.
- **Amazon RDS (Relational Database Service):** Learned to deploy, manage, and scale relational databases in the cloud. Worked on labs involving database backups, snapshots, and security configurations.
- **Amazon EC2 (Elastic Compute Cloud):** Acquired hands-on experience in launching, configuring, and managing EC2 instances. Practiced creating security groups, key pairs, and setting up load balancers for high availability.
- **Projects and Labs:** Designed and Implemented a fully elastic Apache Web Server solution using a VPC, public and private subnets, elastic load balancer, EC2 auto-scaling, NAT-gateway and internet gateway. Configuring the security group to control access to the resources and the Network access control list (NaCl) to control traffic in and out of the VPC and subnets.
