PROFESSIONAL SUMMARY

Cybersecurity and IT Operations Specialist with 10+ years of experience securing enterprise systems, strengthening security controls, and optimizing technology operations. Skilled in aligning IT initiatives with business objectives to enhance operational resilience and efficiency.

WORK EXPERIENCE

Senior Information Systems Officer

01/2022 to Present

Juhudi Kilimo Limited

Nairobi, Kenya

- Led organization-wide cybersecurity initiatives to reduce risk exposure and strengthen the organization's security posture.
- Implemented and proactively monitored data backup and disaster recovery solutions to enhance organizational resilience and ensure business continuity.
- Developed and delivered organization-wide cybersecurity training programs that strengthened employee security awareness and reduced human-related security risks.
- Partnered with external vendors to implement scalable IT solutions that supported business growth and maintained a robust security posture.
- Designed and executed IT strategies that improved operational efficiency, embedded security best practices, and aligned technology initiatives with business objectives across critical enterprise systems.
- Supported ICT audits, compliance initiatives, and data protection efforts, improving governance and ensuring regulatory alignment.
- Provided leadership and mentorship to IT staff, conducted performance reviews, and offered strategic guidance to drive team performance and operational excellence.

Information Systems Officer

02/2014 to 12/2021

Juhudi Kilimo Limited

Nairobi, Kenya

- Managed and maintained enterprise endpoint devices using EDR solutions for desktops/laptops and MDM systems for mobile devices, ensuring robust security and operational reliability.
- Managed secure configuration and patch management across network devices, servers, and storage systems to ensure system integrity, security, and availability.
- Managed the enterprise biometric physical access control system, ensuring secure, efficient, and compliant personnel movement.
- Led procurement of IT hardware, software, and services, managing vendor relationships to ensure cost-effective solutions aligned with business objectives.
- Developed IT documentation, user guides, and operational manuals to promote secure practices and improve operational efficiency across the organization.
- Collaborated with cross-functional teams to implement technologies that improved operational efficiency and supported business objectives.
