SUMMARY

Computer Science graduate with hands-on experience in backend development, machine learning, and IT support. Skilled in Laravel, Python, PostgreSQL, and modern web technologies, with a strong portfolio of real-world projects. Passionate about building scalable systems and solving technical problems in fast-paced, collaborative environments. Actively seeking entry-level opportunities in software engineering, backend development, or technical support.

EDUCATION

University of Nairobi — Bachelor of Science in Computer Science

2021 – 2025 (Completed; awaiting graduation)

Sunshine Secondary School — Kenya Certificate of Secondary Education (KCSE)

2013 – 2016 | Grade: A-

PROJECTS DONE

Task Management System — July 2025

Laravel • PostgreSQL • Blade • Bootstrap • Authentication

- Built and deployed a full-stack task management platform with user roles, task creation, status updates, and an admin dashboard.
- Integrated searchable/filterable modals and dashboards to improve task tracking efficiency.
- Implemented authentication, dynamic UI, and responsive design to enhance usability.
- GitHub: <https://github.com/derrokip4130/Task-Manager>

Poultry Disease Diagnosis System — Sept 2024 – May 2025

Python • Flask • FastAPI • Scikit-learn • ML

- Developed a machine learning system to detect poultry diseases with 85%+ accuracy, targeting cost-saving for small-scale farmers.
- Engineered classification models and RESTful APIs to deliver real-time predictions and breed-specific care recommendations.
- GitHub: <https://github.com/derrokip4130/Final-year-project>

COVID-19 Info Chatbot — Feb 2023 – May 2023

SAP Conversational AI • Flask • APIs

- Created a chatbot that provided live COVID-19 statistics using REST APIs and a custom Flask backend.
- Integrated the bot with SAP's platform to answer FAQs and deliver updates via text.
- GitHub: <https://github.com/derrokip4130/Covid-19-API>

Job Search & Task App (Tkinter) — Feb 2022 – May 2022

Python • Tkinter

- Designed a desktop app allowing users to post, browse, and apply for tasks.
 - Implemented forms, data storage, and event-driven interactions using Python's Tkinter GUI module.
 - GitHub: <https://github.com/derrokip34/Job-system>
-

EXPERIENCE

Kenya National Bureau of Statistics (KNBS) — IT Support Intern

Jul 2024 – Sep 2024

- Provided end-user technical support, installed software and systems, and resolved network and printer issues across multiple departments.
 - Supported system backups, Windows installation, and device setup, improving team response time and operational reliability.
-

CERTIFICATIONS

- Moringa Software Development Certificate (HTML, CSS, JavaScript, Angular, Python: Flask, Django), 2018-2020
-

SKILLS

- **Programming:** Python, JavaScript, C++, C, MATLAB, PHP
 - **Web Development:** Laravel, JavaScript, Angular, HTML, CSS, Bootstrap
 - **Database:** PostgreSQL, MySQL, SQL
 - **Frameworks & Tools:** Flask, Django, Git, PyCharm, Android Studio
 - **AI & ML:** Scikit-learn, pandas (basic proficiency)
 - **Other:** Network Troubleshooting, REST APIs, UI/UX Principles
 - **Soft Skills:** Time Management, Problem Solving, Teamwork
-

LANGUAGES

- English(Fluent), Kiswahili(Fluent)
-
