Phone: +254 702 417 451 | Email: sylviamuganda01@gmail.com | Location: Nairobi, Kenya

Professional Summary

Motivated Information Technology graduate with a strong foundation in computer systems, networking, and software applications. Experienced in IT support, network troubleshooting, and digital literacy training. Skilled in problem-solving, communication, and adapting to new technologies. Eager to contribute technical expertise and innovative IT solutions to support organizational operations.

Key IT Skills

- Network troubleshooting and connectivity support
- WiFi installation and configuration
- Computer hardware installation and maintenance
- Operating systems (Windows, basic Linux)
- Software installation and configuration
- IT support and help desk assistance
- Microsoft Office Suite (Word, Excel, PowerPoint)
- Basic web development (HTML, CSS)
- Data entry and data management
- Cybersecurity awareness

Education

Bachelor of Science in Information Technology

Kibabii University

Year: 2020 – 2025

Secondary Education

Friends High School Givole

Year: 2015 – 2019

Attained a mean grade of C+

Primary Education

Givole Primary School

Year: 2007 – 2014

Attained 358 marks

Internship Experience

IT Intern – Dunia Moja Community Network, Kilifi (Takaungu)

May 2024 – August 2024

- Taught madrassa teachers basic computer skills and digital literacy.
- Introduced school children to coding concepts without the use of computers through the Rangers program.
- Performed network troubleshooting to resolve connectivity issues.
- Installed and configured WiFi connections for community clients.
- Maintained and troubleshot network infrastructure, achieving 99% system uptime through proactive monitoring.
- Supported community digital education initiatives and technology training sessions.

Projects

Developed a Python-based tool using Wireshark and Scapy to monitor and analyze network traffic patterns. Implemented data visualization to identify anomalies, improving network security monitoring efficiency.

- Presented project to university peers, earning recognition for clarity and technical depth.

Certifications

Cisco Certified Network Associate (CCNA), Cisco
