PROFESSIONAL SUMMARY

Detail-oriented Computer Technology student with strong skills in **data manipulation, SQL, Excel, Python, and business intelligence tools**. Experienced in **data cleaning, system documentation, user support, dashboarding, and process optimization**. Experienced in cleaning, analyzing, and visualizing data to support better decision-making. Hands-on background in ICT support, dashboard creation, and preparing structured reports for stakeholders. Passionate about analytics, continuous learning, and developing real-world data solutions.

CORE SKILLS

Data Analysis & Manipulation: SQL, Python (Pandas, NumPy), Excel

Business Intelligence: Power BI, Tableau, (familiar with Qlik Sense)

Data Cleaning: Validation, preprocessing, structuring datasets

Visualization & Reporting: Dashboards, insights presentation

Documentation: Reporting methods, process notes, data source documentation

Technical Tools: MongoDB, SQLite, Git/GitHub

Soft Skills: Analytical thinking, attention to detail, teamwork, communication, learning agility

RELEVANT EXPERIENCE

ICT Intern

Warehouse Receipt System Council (WRSC), Nairobi - May 2024 – Aug 2024

- Cleaned and organized operational data used across departments, improving accuracy for reporting.
- Prepared Excel-based reports and visual summaries for management decisions.
- Documented user workflows, created user guides, and improved troubleshooting processes.
- Supported system testing and issue tracking, showcasing analytical and problem-solving skills.

Junior Loan Officer

Mboleko Limited, Nairobi - Nov 2022 – Mar 2023

- Cleaned and analyzed repayment data using Excel dashboards, reducing overdue accounts by **15%**.
- Maintained internal datasets and weekly reports to support decision-making for the Credit and Business Development teams.
- Conducted structured client documentation and created clear reporting summaries for management.

TECHNICAL PROJECTS

- Superstore Sales Performance Analysis (Power BI, Excel)** – Sales trends, profitability analyses, automated reporting dashboard.
- Energy Monitoring & Anomaly Detection System (Python, SQLite, Streamlit, MongoDB)** – Time-series data collection, cleaning, anomaly detection, visualization dashboards.
- Psychology Sentiment & Social Behavior Analysis (Python, Scikit-learn)**– Data cleaning, hypothesis testing, visual exploration of survey dataset.
- Netflix Customer Churn Analytics Dashboard (Excel)**– Customer segmentation, churn modeling, visual dashboards for insights.

EDUCATION

- BSc. Computer Technology - Sep 2021 – Nov 2025*
Jomo Kenyatta University of Agriculture & Technology (JKUAT)
- ALX Data Science Program - June 2025 – Present*

CERTIFICATIONS

- Google Data Analytics Professional Certificate – (Coursera)
- Oracle Cloud Infrastructure AI Foundations Associate
- Applied Data Science – WorldQuant University
- Machine Learning Fundamentals – Alteryx
- Introduction to Data Science – Cisco
- IBM Data Fundamentals

VOLUNTEER EXPERIENCE

Data Analyst (Remote)

Success Forger, Poland – July 2025

- Cleaned and analyzed large payment datasets to identify usage patterns and transaction behaviors.
- Built visualizations that improved understanding of user engagement and product performance.
- Documented data sources, transformations, and analytical steps for repeatability and clarity.

Data Analyst

Fintech Frontiers, Nairobi- Apr 2022 – Aug 2022

- Cleaned, validated, and structured survey data on motorbike loan customers for analytics reporting.
- Designed survey tools and created dashboards summarizing user pain points and behavioral insights.
- Presented findings to product teams, contributing to data-driven decision-making.
