ABOUT ME

I am a Certified Data Scientist with a strong foundation in **Business Information Technology** (Bachelor's degree) and specialized training in **AI Career Essentials**. I possess a unique combination of analytical, technical, and business acumen, enabling me to bridge the gap between data-driven insights and strategic decision-making. Proficient in leveraging statistical analysis, machine learning, and data visualization to solve complex problems and uncover actionable insights. Passionate about using AI and data science to drive innovation and deliver impactful solutions across diverse industries. Proficient at collaborating with cross-functional teams and communicating findings to technical and non-technical stakeholders.
