Job Description:

About BQI Tech

We are software development and technology professional service company that specializes in delivering modern solutions and services to the State and Local Government in the Land Management, Business Licensing, Professional Licensing, and Asset Management spaces.

We're seeking talented and self-motivated individuals who are passionate about customer satisfaction and have a keen eye for detail. Join us in delivering successful solutions in the e-governments space.

About the role:

- Review captured business requirements.
- Configure solutions that meet customer needs based on stories entered in JIRA or developed in Microsoft Word.
- Develop, test, and document complete solutions.
- Provide end user and technical documents on completed solutions.
- Participate in other technical components (Scripting, Data Conversion/Migration, Report Development)

About You

- Interest in Commercial Off the Shelf (COTS) software configuration.
- Knowledge of Report Development using SSRS or Crystal Reports.
- Interest in Land Management, Business Licensing, Professional Licensing, Code Enforcement.
- Bachelor's degree in information technology or related field.
- Strong written and verbal communication.
- Strong presentation experience.
- Experience with both Agile and Waterfall methodologies
- Basic JavaScript experience.
- SQL Script experience (Oracle or SQL Server)

Interested candidates can apply and submit their applications through our official website at:
