---

## Objective

I am an IT professional with hands on experience in technical support, system administration, networking, and enterprise application support. Proven ability to troubleshoot complex issues, support global users, and maintain secure and reliable systems. Seeking an opportunity to contribute technical expertise while continuing to grow in infrastructure and enterprise IT environments.

---

## Experience

### Azmasoft Consulting Limited.

#### Technical Support Analyst

April 2025 – Present

- Provide technical support for the TeamMate Audit Management System to enterprise clients across EMEA, USA and Asia-Pacific regions.
- Support TeamMate implementations, system upgrades, and patch installations, ensuring smooth deployment and minimal downtime.
- Troubleshoot and resolve user reported issues related to application performance, authentication and database connectivity.
- Install, configure, and maintain SQL Server environments used by TeamMate, including database setup and user access management.
- Administer Active Directory permissions and access control to maintain secure system authentication.
- Deliver technical training and guidance to end users and client teams to improve system utilization and operational efficiency.
- Document incidents, solutions, and system procedures while maintaining compliance with service level agreements (SLAs).
- Collaborate with internal teams to resolve complex technical issues and improve support processes.

### Sportserve Ltd.

#### Payment Operations Specialist

November 2024 -April 2025

- Recorded, verified, and processed deposit and withdrawal transactions using Alpine, Tarus, and JPay, ensuring accuracy and compliance.
- Audited transactions to identify irregularities or potential fraud, escalating and mitigating risks as needed.
- Coordinated with internal teams and payment partners to resolve account and transaction issues promptly.
- Escalated IT or system-related issues to Level 2 support, keeping seniors and shift leaders informed of complex cases.
- Maintained incident documentation while ensuring SLA compliance and smooth daily operations

## **Pharmaken Ltd.**

### **IT & Design Technician Intern**

**July 2024 -October 2024**

- Provided end-to-end IT support for the Pharmaken Nairobi branch, resolving hardware, software, and user-related technical issues.
