Software Developer/Engineer

Tel: 0770614345/0725660256 ♦ Nairobi, Kenya

OBJECTIVE

I am a talented software engineer and technical support specialist with a solid foundation in software development and a proven track record in developing innovative software solutions that drive business growth. I possess strong skills in database management, networking, operating systems, API development and ICT Support. I aim to leverage my technical expertise and passion for data-driven solutions to build scalable and efficient systems.

EDUCATION

Computer Software Engineering, Moringa School Sep 2023 - Aug 2024
Front-end and Back-end technologies with a focus on database management, RESTful APIs, and data-driven applications using JavaScript and Python.

Bachelor of Business Information Technology, Multimedia University of Kenya Sep 2019 - Oct 2023
This course combines key aspects of Information Technology, such as software development, with key facets of business, such as accounting and operations management. Focused on Information Systems, including database design, SQL programming, and integration of technology with business processes.

Certified Public Accountant (CPA), LIIT College Jan 2019 - May 2019
Sections I and II of the CPA.

Kenya Certificate of Secondary Education (KCSE), Murang'a High School Feb 2015 - Nov 2018
High School Certification.

SKILLS

Technical Skills

Programming Languages: JavaScript, Python, PHP

Front-end Technologies: HTML, CSS, Bootstrap, Tailwind, React Js

Back-end Technologies: Node.js, Flask, Laravel, Restful APIs

Databases: MySQL, SQLite, PostgreSQL, SQL Server

Tools: Git, GitHub, Linux, Database normalization, Data migration

Other Skills

- Project Management.
- Data Entry and Report Writing.
- Market Research and Analysis.
- Business Intelligence and Development.
- Written and Verbal Communication Skills.
- Relationship and Customer Management.

WORK EXPERIENCE

1. Junior IT Support Specialist May 2023 - December 2023
Adrian Kenya Limited *Kikuyu, Kenya*

- Provided technical support for telecommunications systems, including troubleshooting network connectivity issues and ensuring uptime for services.
- Assisted in installing and configuring hardware such as routers, switches, and modems.

- Supported the setup and maintenance of company servers and ensured optimal server room conditions.
- Managed helpdesk tickets, responding to and resolving technical issues in a timely manner.
- Conducted routine maintenance and updates for system software to optimize performance.
- Provided training to end-users on software applications and IT equipment.
- Maintained inventory of IT assets, ensuring timely replacements and repairs of critical hardware.

2. Technical Support

April 2024 - Present

Quickmart Kenya Limited

Ruaka, Kenya

- Providing technical support to users by troubleshooting hardware and software issues.
- Setting up user accounts and managing access controls.
- Provided nationwide technical support for hardware and software issues, ensuring seamless operations across all branches.
- Monitored and maintained optimal server room conditions, including managing air conditioning systems.
- Performing routine maintenance and updates on computers and software.
- Keeping an inventory of IT equipment and managing hardware replacements.
- Assisted with software installation, updates, and license management to maintain compliance and system security.
- Created and maintained user accounts, managing access controls and permissions for staff.
- Participating in the development of software applications, including designing, coding, and debugging.
- Learning new programming languages, tools, and frameworks as required by the projects.
- Assisted with database management, ensuring data consistency across branches. Participated in developing data-driven solutions for internal software systems.
- Performed basic database maintenance and assisted in integrating data with operational systems.
- Actively participated in evaluating and implementing new IT solutions to enhance operational efficiency.

PROJECTS

School Attendance Tracker System. Designed and built a system using React, Flask, and PostgreSQL, focusing on data management, student records, and report generation for attendance tracking.
