Daystar University Bachelor of Commerce in Purchasing and Business Logistics	End Nov 2020

Projects

From Script to Screen: Data-Backed Decisions for a Profitable Film Studio -<https://github.com/Day-hue/phase-2-project>

Analyzed movie data from Rotten Tomatoes, IMDB, and The Numbers DB to uncover which genres, budgets, and ratings drive the highest revenues, providing insights for profitable film production decisions

Simplifying Customer Insights to Prevent Churn-https://github.com/Petina-leni/phase_3_project

Analyzed customer churn in the telecommunications sector to identify key drivers, including pricing, service quality, usage patterns, and system issues. Developed insights to predict which customers are likely to churn, helping guide retention strategies and optimize revenue management.

Sentiment Analysis of Apple-Related Tweets Using Machine Learning and NLP-https://github.com/Petina-leni/phase_4_project

The Sentiment Classification System leverages machine learning and deep learning to analyze sentiments in Apple-related tweets. The project applies Natural Language Processing (NLP) to assess public opinion trends.

EXPERIENCE

Investments Department | Kenya Development Corporation

May 2024 – September 2024 | Nairobi

- Reviewed and analyzed over 150 tenant and project reports, ensuring 98% accuracy in records, compliance with company policies, and timely support for management decision-making.
- Developed loan repayment schedules for portfolios worth KSh 20M+, detailing repayment timelines, interest calculations, and amortization, which improved financial planning efficiency by 25%.
- Prepared feasibility studies for 10+ proposed projects, evaluating financial viability, risks, and projected ROI, directly supporting strategic investment decisions and resource allocation.

Supply Chain Department | Ministry of trade

January 2022 – February 2023| Nairobi

- Prepared and consolidated annual procurement plans, accurately coding and uploading over 50 items and services into the ERP system to support compliance and timely procurement execution.
- Supported the budgeting process by linking procurement plans to the ERP system, ensuring alignment of resources with organizational priorities and improving budget accuracy by 20%.
- Prepared tender documents for 15+ procurement processes, ensuring adherence to regulatory requirements and facilitating transparent and competitive supplier selection.

Administration Department | Kenindia Insurance

September 2020-February 2021| Nairobi

- Created over 100 Local Purchase Orders (LPOs) for requisition requests from multiple departments, ensuring timely procurement and accurate communication with more than 20 suppliers.
- Issued 80+ internal delivery notes for received supplies, maintaining proper documentation, accountability, and smooth inventory tracking.
- Processed 100+ supporting documents with delivery books for payment, enabling accurate reconciliation and reducing supplier payment turnaround time by 15%.
