

JOHN NJOGU NJOROGÉ

P.O. Box 57907, Nairobi, Kenya | Mobile: +254714020997 | Email: jnnjogu6@gmail.com

Nationality: Kenyan | Languages: English, Swahili; Basic French

PROFESSIONAL SUMMARY

Highly skilled researcher and programme manager with over five years' experience supporting science programmes and projects across Africa. Adept at designing and executing data-driven research, developing and implementing strategic frameworks, and coordinating multi-stakeholder engagements. Proven record in translating complex research and policy data into impactful actions that advance global health equity and foster sustainable development.

CORE COMPETENCIES & KEY SKILLS

- **Programme & Project Management:**
 - Strategic planning, execution, and monitoring of multi-country projects.
 - Proven ability in setting programme goals, risk management, and ensuring compliance with policy and data protection standards.
- **Research & Data Analysis:**
 - Expertise in desk research, quantitative and qualitative analysis, and using tools (Python, R, NVIVO, SPSS, Jupyter) to generate actionable insights.
 - Skilled in designing methodologies that inform policy, programme evaluation, and continuous learning.
- **Stakeholder Engagement & Communication:**
 - Effective in engaging diverse audiences through workshops, stakeholder consultations, and cross-consortia collaborations.
 - Strong presentation, report writing, and public speaking skills that drive consensus and facilitate policy dialogue.
- **Policy & Framework Development:**
 - Experience co-developing Monitoring, Evaluation, and Learning (MEL) frameworks and results frameworks (Theory of Change, outcome/output indicators).
 - Proven track record in drafting policy recommendations and frameworks that guide international and continental initiatives.
- **Technical Proficiency & Innovation:**
 - Competence with programming languages (Python, R, C++, Bash) and visualization tools (PowerBI, Seaborn, Matplotlib, Infogram, VISME) that support data-driven decision making.
 - Expertise in designing digital tools (e.g., triage tools) that streamline operational workflows and enhance programme transparency.

PROFESSIONAL EXPERIENCE

Karatina University

Research Assistant

July 2024 – Present

Organizational Resilience & Sustainability Capabilities

- **Workshop planning:** Organized and coordinated the planning and execution of a high-level stakeholder workshop at the Kenya School of Government, contributing to the multi-stakeholder alignment during the project's inception phase, enhancing project relevance and stakeholder buy-in.
- **Project Management and documentation:** Supported the development and execution of detailed work plans, and facilitating financial due diligence reporting ensuring fiscal accountability and transparency. Documented project milestones, lessons learned and best practices for M & E reporting.
- **Technical Support:** Conducted mixed-methods research on institutional resilience in Kenyan universities,

generating foundational data to inform institutional resilience strategies and national policy on academic emergency preparedness

African Society for Bioinformatics and Computational Biology – ASBCB Omics Codeathon

Researcher

July – December 2024 (Part-Time)

- **National Research Leadership:**
 - Led the development of an antimicrobial profiling and network analysis tool using Abricate and Python, significantly enhancing public health research capabilities.

Science for Africa Foundation

Programme & Data Analyst Roles – Graduate Intern

2023 – 2024

- **Strategic Programme Development & Execution:**
 - **Framework Design:** Co-developed the Major International Partners (MIPs) strategy in collaboration with the Wellcome Trust's Major International Programme partners, ensuring alignment with organizational goals; framework now in pilot phase across 4 continents and under evaluation for scalability.
 - **Results Frameworks:** Supported the design of robust results frameworks—including the Theory of Change and comprehensive reporting tools—to monitor PES programme delivery and capture evidence for policy recommendations.
 - **Risk & Compliance:** Established risk management strategies and ensured adherence to the Data Protection Act 2019, resulting in improved governance and transparency.
- **Research & Stakeholder Engagement:**
 - **Policy Mapping:** Utilized advanced data analytics in Python and NVIVO to map policy gaps in AI and global health, generating critical evidence for the development of regulatory frameworks across Africa.
 - **Workshops & Knowledge Exchange:** Organized and facilitated four continent-wide workshops (covering MENA, East, West, and South Africa) that attracted over 200 participants, fostering interdisciplinary collaboration and community of practice on AI and data science.
 - **Policy Influence:** Drafted detailed policy recommendations for the United Nations and African Union, contributing to dialogue on AI regulation and global health strategies. The resulting recommendations were incorporated into the African Union's STISA 2063 agenda and presented at the UN General Assembly.

Additional Relevant Experience

- **Presiding Officer, IEBC (2022):**
 - Efficiently coordinated polling station operations during national general elections; managed training and supervision of clerks, ensuring secure handling of election materials and transparent result transmission.
- **Volunteer Bioinformatics Teaching Assistant, H3ABioNet (2022):**
 - Delivered bioinformatics and African Genomics Medicine Training to 50 emerging researchers, promoting multidisciplinary learning and technical proficiency.
- **Bioinformatics Research Intern, International Centre for Insect Physiology and Ecology (ICIPE) (2021):**
 - Developed data analysis pipelines for large-scale datasets and contributed to projects on metagenomics and meta transcriptomics, leading to innovative research outputs with applications in biotechnology and renewable energy.

EDUCATION & CERTIFICATIONS

- **Nano-Degree in Data Science, AI & Machine Learning**
Moringa School, Ongoing.
Focused on advanced data analytics, machine learning techniques, and innovative research methods.
- **Implementation Research on Infectious Diseases of Poverty**
World Health Organization, Oct–Dec 2024
Specialized in strategy design methodologies, systems-level thinking, and evidence translation for optimized health intervention

delivery.

- **Monitoring and evaluation Fundamentals**

Global Health eLearning Centre, Jan - Feb 2024

Specialized in data quality techniques and transforming data into strategic information

- **B.Sc. in Applied Bioengineering, (2nd Class, Upper Division)**

Jomo Kenyatta University of Agriculture and Technology, 2015–2019

Specialized in applied research techniques, quantitative analysis, and interdisciplinary problem solving.

- **Kenya Certificate of Secondary Education (KCSE), (B+)**

Aquinas High School, 2011–2014.

PROFESSIONAL MEMBERSHIPS & COLLABORATIONS

- Connected Virus Network
- African Society of Bioinformatics and Computational Biology
- H3ABIONET
- Bioinformatics Hub of Kenya Initiative

PUBLICATIONS & PRESENTATIONS

- **Advancing Artificial Intelligence in Africa:**

Authored an op-ed exploring the transformative potential of AI in research, policy, and societal impact. ([link to oped](#))

Co-drafted the Governance of Artificial Intelligence for Global Health policy review report ([link](#))

- **Peer-Reviewed Research Contributions:**

- Co-author of *The Genome Sequence of a Tachinid Fly, Thecocarcelia acutangulata*. ([link](#))
- Contributor to the study *Metatranscriptomic Analysis of the Gut Microbiome of Black Soldier Fly Larvae*, emphasizing enzyme profiling with biofuel applications. ([link to the paper](#))

- **Open Science Initiatives:**

Spearheaded the translation of the Open Science Frameworks (OSF) platform into Swahili, improving accessibility for local researchers. ([link](#))

ADDITIONAL INTERESTS

- Deepening expertise in data science and advanced modelling techniques.
- Exploring applications of cloud computing and artificial intelligence in health research.
- Enthusiastic about photography, playing musical instruments, hiking, and traveling.
