Personal details

-  Kiptoo Collins Bett
-  kiptoobett2@gmail.com
-  0720 272 937
-  P.O. Box 105-20210, Litein
20210 Litein

Skills

Power & Energy Systems: Electrical machines, transformers, power transmission, switchgear, protection systems

Automation & Control: SCADA systems, PLC programming, Instrumentation, Process control, Industrial automation

Programming & Software: C, C++, Java, Python, SQL, MATLAB, ARM

Embedded & IoT Systems: Microcontrollers, IoT integration, real-time monitoring

Tools & CAD: AutoCAD Electrical, MATLAB/Simulink, Proteus, PSPICE

Database management, Web design, Technical documentation, Project management

Analytical and critical thinking

Teamwork and collaboration

Strong communication & reporting

Adaptability and innovation

Profile

A results-driven and innovative Electrical and Electronics Engineer (Power and Machines major) from Moi University with expertise in power systems, electrical machines, SCADA, PLC automation, and renewable energy systems. Skilled in programming (C, C++, Java, Python, SQL), industrial automation, and embedded systems. Seeking to apply technical knowledge, problem-solving skills, and hands-on experience to deliver efficient engineering solutions in power, automation, and energy industries.

Education

- Bachelor of Engineering in Electrical & Electronics Engineering (Power and Machines Major)** 2025
Moi University – School of Engineering _awaiting graduation
- KCSE Certificate** 2018
MARANDA HIGH SCHOOL
- KCPE Certificate** 2014
SALLY ANN SCHOOL

Employment

- Industrial Attachment** May 2024 - Aug 2024
Powerware Systems Ltd
 - Assisted in installation, maintenance, and testing of UPS systems (1kVA–60kVA), battery banks, inverters, and power continuity systems..
 - Performed electrical fault diagnosis and preventive maintenance of backup systems.
- Industrial Attachment** May 2023 - Aug 2023
Kapkatet Tea Factory
 - Worked on electrical machines and motor drive systems.
 - Participated in PLC and industrial automation for process control.
 - Contributed to system monitoring and SCADA integration.
- Industrial Attachment** Jan 2021 - Jul 2021
Adways Ventures Ltd
 - Assisted in installation, configuration, and maintenance of structured LAN systems and broadband setups for residential & commercial clients.
 - Supported deployment of IP-based security systems (CCTV, maglock doors, access control).
 - Configured routers, switches, and client devices to ensure network stability & security.

Projects

SMART IoT-enabled Attendance System

Developed RFID + cloud-based attendance solution.

Renewable Energy Integration Model

Simulated hybrid solar-wind system for rural electrification.
