

EDUCATION

Jomo Kenyatta University of Agriculture and Technology (JKUAT) - Nairobi, Kenya
BSc. Computer Technology
First Class Honours (Graduating Nov 2025)

Sep 2021 – Aug 2025

EXPERIENCE

Content Digitization and Technical Assistant
AENI International – Nairobi, Kenya

Jun 2025 – Aug 2025

- ❖ Developed the content in digital form to improve the user experience and ensure 90% availability of the content with above 0.8 system performance and optimized content responsiveness across varied devices

Undergraduate Research: Tomato Crop Health Monitoring & Disease Detection
JKUAT – Nairobi, Kenya

Sep 2024 – May 2025

- ❖ Developed an Android application integrating IoT sensor data (soil moisture, temperature, humidity) with machine learning models for early tomato disease detection.
- ❖ Implemented a virtual assistant using the Natural Language Processing concepts of tokenization, semantic analysis, part-of-speech tagging, and named entity recognition (NER), thus improving response accuracy by 50% compared to manual traditional responses and maintaining 90% system uptime.
- ❖ Achieved a 50% improvement over traditional manual diagnostic accuracy, reducing crop losses and minimizing reliance on manual guesswork.

Intern, Digital Financial Services
Kenya Commercial Bank Limited – Nairobi, Kenya

May 2024 – Aug 2024

- ❖ Conducted quality assurance testing and data protection compliance analysis on the mobile banking super-app ensuring optimum data compliance and optimum system standards
- ❖ Coordinated with 4 telecommunication service providers to analyze the customer data of over 1 million customers and develop customer scorecards.

TECHNICAL SKILLS

- ❖ **Programming Languages:** Python, JavaScript (ES6+), SQL, Dart, Kotlin
- ❖ **Frameworks & Libraries:** Flask, Node.js, Flutter
- ❖ **Web Technologies:** HTML5, CSS3, RESTful APIs, AJAX, JSON
- ❖ **Tools & Platforms:** Git, Postman, VS Code, Android Studio

CERTIFICATIONS

- ❖ Software Development - Power Learn Project (Dec 2024)
- ❖ Aspire Leaders Program Certified (Nov 2024)
- ❖ ALX Software Engineering Certified (Jun 2023)
- ❖ Microsoft Azure Certified - AZ-900 (Jun 2022)
- ❖ Capacity and Team Building Training by Zoe Consultants Africa.

PROJECTS

TCLA-X Company Website - Nairobi, Kenya

Jun 2025 – Aug 2025

- ❖ Built and deployed a full-stack company website using Next.js, React, and Tailwind CSS, hosted on Vercel, to establish the firm's online presence.
- ❖ Integrated dynamic content management with TypeScript and REST APIs with Json data, enabling real-time updates of services, company team profiles, and testimonials.
- ❖ Implemented responsive, SEO-optimized UI/UX that improved site accessibility and brand visibility across devices.

Election Management system - Nairobi, Kenya

Sep 2023 – Dec 2023

- ❖ Designed and developed a digital election platform using Flask, HTML, CSS, JavaScript, and MySQL to strengthen

electoral integrity and transparency.

- ❖ Implemented secure vote tallying and results visualization features, achieving a 93% accuracy rate in system testing and simulations.

Expense Tracker Application – Nairobi, Kenya

Jan 2024 – Aug 2024

- ❖ Developed an Android application using Kotlin and Firebase with a Python backend, supporting real-time expense logging and retrieval.
 - ❖ Implemented secure authentication, expense categorization, and interactive dashboards for spending analysis.
 - ❖ Achieved 97% uptime, high response time, and supported 10 user transactions daily during testing, improving accuracy of expense tracking by over 40% compared to manual logs.
-

VOLUNTEERING EXPERIENCE

Young Scientists Kenya (YSK) – Nairobi, Kenya

A national STEM outreach program modeled on BT-Young Scientists Ireland, giving high school students a platform to showcase research and innovation.

Tech Judge (Virtual)

Jun 2024 - Jul 2024

- ❖ Judged 8 projects in the Technology category during the national-level fair, providing written feedback and structured evaluation.

Tech Judge (Virtual & Physical)

Jul - Aug 2025

- ❖ Evaluated 9 Technology projects remotely, reviewing documentation, testing prototypes where possible, and providing structured scoring with written feedback.
- ❖ Assessed 6 Technology projects on-site, engaging with student teams through Q&A, probing technical design choices, and delivering fair, evidence-based evaluations.

NET Ministries – JKUAT

NET Ministries is a Christian outreach and discipleship movement for university students that focuses on spiritual growth, missions, and community service.

Chairperson

Oct 2023 – Nov 2024

- ❖ Organized and led a mission to Kisumu City - Kenya, by mobilizing Kshs. 250,000 in support through making and selling samosas, sale of t-shirts and bookmarks, and engaging well-wishers through direct appeals.
- ❖ Coordinated welfare initiatives for students from under-resourced backgrounds, securing educational and personal support valued at Kshs. 1,000 – 5,000 per beneficiary

Chairperson, Instruments Acquisition Committee

Jan 2023 – Oct 2023

- ❖ Mobilized funds through sales of sweets, samosas, gift items, organized fundraisers, and direct donation appeals, raising about Kshs. 200,000 to acquire instruments for community outreach.

Organizing Secretary

Jan 2022 – Oct 2023

- ❖ Planned and coordinated 3 major prayer retreats, managing logistics and budgeting that consistently drew 35–40 participants, strengthening fellowship and spiritual growth.
- ❖ Organized 6 bonding and team-building activities and sessions and sourcing facilitators that increased member participation by over the year through enhanced accountability
- ❖ Facilitated welfare support initiatives by sourcing resources from university student union and the Christian union worth Kshs. 50,000, providing educational and personal assistance to 4 students facing challenges.

Anglican Church of Kenya (ACK) – Ogande Parish (Southern Nyanza Diocese)

The ACK is one of the largest Christian denominations in Kenya, with a parish having 2 or more churches

Youth Secretary

Dec 2020 – Dec 2023

- ❖ Organized 8 youth rallies and conferences with an average turnout of 200 participants, addressing faith, drug and substance abuse, academic excellence, and employment challenges, which strengthened youth mentorship and community impact.
- ❖ Coordinated 2 community visits to local homesteads, combining devotion with distribution of essential items that supported about 18 disadvantaged families.
