Professional Summary

A skilled and results-driven **Network Administrator** with hands-on experience in managing network infrastructure, troubleshooting connectivity issues, and optimizing wireless performance. Proficient in **UniFi Controller, MikroTik, and Cisco networking**, with strong expertise in **PPPoE configuration, access point management, and network performance optimization**. Adept at ensuring stable, secure, and high-performance network environments.

Career Objective

To grow as a Network Administrator by applying my expertise in **network troubleshooting, configuration, and optimization** to support reliable and secure IT infrastructure.

Key Skills

- Network Configuration & Troubleshooting
- Wireless Networking (2.4GHz & 5GHz optimization)
- Router & Switch Management (MikroTik, Cisco)
- UniFi Controller Management
- PPPoE Configuration (ISP links e.g., Liquid Telecom)
- Access Point Setup & Optimization
- Network Monitoring & Performance Analysis
- IP Addressing & DNS Configuration
- LAN/WAN Management
- Technical Support & Helpdesk
- Basic Network Security

Work Experience

Network Administrator

SOLIS PREMIUM SERVICED OFFICES

Westlands, WestEnd Towers, Nairobi

 **May 2024 – Present**

Responsibilities:

- Manage and maintain network infrastructure including **MikroTik routers, Cisco switches, and UniFi access points**
- Configure and troubleshoot **PPPoE connections** and ISP links
- Monitor network performance and resolve issues such as **poor network quality, latency, and intermittent connectivity**
- Optimize wireless networks using **UniFi Controller (channel planning, channel width, and frequency tuning)**
- Troubleshoot Wi-Fi issues, especially in **high-density 2.4GHz environments**
- Provide technical support to users and ensure minimal downtime
- Implement IP addressing schemes and basic network security measures

Achievements:

- Managed and supported network access for **multiple office users and tenants** within a serviced office environment
 - Improved Wi-Fi stability by optimizing access point configurations and reducing interference
 - Reduced user complaints related to connectivity through proactive monitoring and troubleshooting
 - Enhanced network performance by optimizing channel utilization and bandwidth distribution
-

Marketing Officer & IT Personnel

Africa Film and Television Talent Training Institute

Oct 2021 – April 2024

Responsibilities:

- Provided IT and network support for staff and students
 - Maintained stable internet connectivity and resolved network issues
 - Assisted in managing internal systems and basic network infrastructure
 - Supported digital platforms and technical operations
-

Marketing and Sales Specialist

SunKing, Nairobi

2018 – 2021

- Developed and executed sales strategies
- Maintained strong client relationships
- Conducted market research and customer engagement

Education

Bachelor of Science in Computer Science

Meru University of Science and Technology

2016 – 2020

Computer Packages (Distinction)

Nairobi Institute of Information Technology

2015 – 2016

Technical Projects / Experience

- Configured and optimized wireless networks using **UniFi access points**
- Diagnosed and resolved ISP-related connectivity issues (PPPoE environments)
- Implemented structured IP addressing schemes
- Troubleshot real-world issues including **latency, packet loss, and poor signal strength**

Additional Skills

- Strong analytical and problem-solving skills
- Excellent communication and user support
- Ability to work under pressure
- Team player
