EDUCATION

Jomo Kenyatta University of Agriculture and Technology <i>Bachelor of Science in Information Technology</i>	Kiambu, Kenya Sep. 2021 – May, 2025
ALX Software Engineering Program <i>Software Engineering</i>	Nairobi, Kenya Nov. 2022 – Jan 2024
Starehe Boys Center and School <i>High School Education</i>	Nairobi, Kenya Jan. 2017 – Dec 2020

EXPERIENCE

Cloud Support Associate Intern <i>Amazon Web Services</i>	Feb 2025 – May 2025 Nairobi, Kenya
• Learnt to use AWS and all its services and how to assist customers when facing an issue with AWS service integrations with their solutions • Worked on mock customer cases and did an AWS integration group project • Completed the solutions architect associate exam	
Software Developer <i>Kenya Companies</i>	Aug 2024 – Present Nairobi, Kenya
• Worked on the updates on the outdated kenyacompanies website including security updates and updates to the frontend • Using languages like HTML, CSS, Joomla libraries and the SQL backend, we made changes to the structure of the website • Implemented a payment gateway into the web application which was previously lacking	
Information Technology Support Specialist <i>SANCOM Ltd</i>	Aug. 2024 – Nov. 2024 Nairobi, Kenya
• Communicate with company to set up computers for various clients • Assess and troubleshoot computer problems brought clients and within the office • Maintain upkeep of computers, servers, and printers across campus • Documentation of existing implemented systems.	
Information Technology Intern <i>SANCOM Ltd</i>	May 2024 – Aug 2024 Nairobi, Kenya
• Assisted in setting up and configuring computer systems for office and client use. • Supported troubleshooting for software, hardware, and network issues within the organization. • Collaborated with team members to perform routine maintenance on servers, computers, and network devices. • Documented procedures and solutions for common IT problems to improve future response times. • Led a team in creating a secure messaging mobile application in flutter for one of the companies clients	
Data Entry Clerk <i>Kenya Companies</i>	Jul 2021 – Sep 2021 Nairobi, Kenya
• Transferred data from various company websites into the Kenya Companies platform to support a large-scale B2B marketplace. • Ensured accuracy and consistency of information for enhanced usability and reliability. • Conducted regular checks and updates to maintain a comprehensive and up-to-date database. • Assisted in organizing and categorizing company profiles for improved search functionality and accessibility.	

PROJECTS

- Amazon Go** | *AWS Services - Lambda, Amazon managed blockchain, Sqs, RDS, etc* Mar 2025 – Apr 2025
- Designed comprehensive AWS architecture documentation for a blockchain-based public transport payment system utilizing Managed Blockchain and serverless services.
 - Developed detailed three-tier architectural plans incorporating real-time queue management and location tracking solutions.
 - Created technical documentation for multi-channel payment integration including mobile apps, USSD, and QR code systems.
 - Documented security architecture and compliance requirements using AWS services including Cognito, VPC security groups, and blockchain encryption.
- Test Nest** | *Python, Flask, React, PostgreSQL, Docker* Nov 2022 – Jan 2024
- Developed a full-stack web application using with Flask to be used to test students in code in universities
 - Visualized GitHub data to show collaboration
 - Used Celery and Redis for asynchronous tasks
- Airbnb Clone** | *Python, Flask, React, PostgreSQL, Docker* Nov 2022 – Jan 2024
- Built a full-stack web application using Flask, emulating Airbnb's functionality for booking and listing properties.
 - Integrated PostgreSQL for data storage, with Nginx for load balancing and serving static content.
 - Designed and implemented user authentication, property listings, and booking management features.
 - Deployed the application using Docker to create a scalable and containerized environment.
- Secure Messaging App** | *Flutter, Django, PostgreSQL, AES Encryption* May 2024 – Aug 2024
- Developed a cross-platform messaging application in Flutter with a Django backend to ensure secure, real-time communication.
 - Integrated AES encryption to provide end-to-end message security for users.
 - Designed a user-friendly interface with authentication features, contact management, and chat functionalities.
 - Deployed PostgreSQL for reliable data storage and retrieval, ensuring scalable backend performance.
- Command Line** | *Bash, Shell Scripting* Nov 2022 – Jan 2024
- Developed a command-line application in Bash to streamline file management tasks, such as copying, moving, and organizing files.
 - Implemented custom commands for advanced file search, bulk renaming, and permission management.
 - Enhanced usability with clear error handling, logging, and a help feature for command guidance.
 - Optimized for performance, enabling efficient handling of large file sets in various directories.

CERTIFICATIONS

Oracle Cloud Infrastructure: OCI 2025 Certified Architect Associate
IBM: Containers & Kubernetes Essentials
Amazon Web Services: Introduction to Generative AI
Amazon Web Services: ML Foundations
Udacity: Introducing Generative AI with AWS
Oracle Cloud Infrastructure: OCI 2025 Foundation Associate
Amazon Web Services: AWS Solutions Architect Associate
ALX: ALX Software Engineering Program
Red Hat: Red Hat Certified System Administrator (RHCSA)
Huawei: Huawei Certified ICT Associate
IBM: Microservices with Istio and IBM Cloud Kubernetes Service
Amazon Web Services: AWS CLI Basics
Amazon Web Services: Advanced Testing Practices Using AWS DevOps Tools
Sololearn: C++ Sololearn Certificate

TECHNICAL SKILLS

Languages: Python, C/C++, mySQL, JavaScript, HTML/CSS
Frameworks: React, Node.js, Flask, WordPress, Django
Developer Tools: Git, Kubernetes, Docker, AWS Cloud, Microsoft Azure, IBM Cloud, Oracle Cloud Infrastructure, Linux, Bash and Shell Scripting
Concepts: Data Structures, Networking, Asynchronous Programming, Encryption, Containerization, REST APIs, Low-Level system engineering, Data scraping
