

KELVIN KIMUTAI RONO

Address: P.O. Box 174-20210, Litein, Kenya

Phone: +254 726 729 893

Email: kimutaironokelvin@gmail.com.

LinkedIn: <https://www.linkedin.com/in/kelvin-kimutai-softwaredeveloper>.

PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience in full-stack development, agile project delivery, and building scalable web applications using JavaScript, React, Node.js, and MongoDB. Adept in version control, team collaboration, and implementing secure, user-centric solutions. Passionate about innovation, continuous learning, and using modern development practices to solve real-world problems.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React, Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Visual Studio Code, Postman, Heroku

Methodologies: Agile (Scrum), RESTful API design

Networking: TCP/IP, Router/Switch Configuration, Network Security Basics

EDUCATION

Bachelor of Science in Computer Science

Kabarak University | 2017 – 2023

Second Class Honors

CERTIFICATIONS

- Cisco Networking Basics – Credly Badge
- Cybersecurity Essentials – Credly Badge
- Introduction to Cybersecurity – Credly Badge
- Cisco Certified – ICTA-1739477804-3271-29234

PROFESSIONAL EXPERIENCE

GIS Developer

SolarJiji | Hybrid | June 2025 – Now

- Built and maintained company web portals using HTML, CSS, JavaScript, and React.js.
- Integrated interactive maps (Leaflet, Google Maps API) to show project locations and solar installations.
- Linked front-end components to back-end APIs for seamless data exchange.
- Handled database updates to keep project and user records accurate.
- Improved site performance and made sure it worked well on all devices.
- Worked with design and operations teams to enhance layout and user experience.
- Added admin dashboard tools for managing projects, users, and content.

ICT Technician

Silverhub Electrical Engineers Ltd | May 2024 – May 2025

- Maintained and troubleshooted IT infrastructure, including network systems, hardware, and software installations.
- Diagnosed technical issues, implemented security measures, and supported staff with day-to-day ICT operations.
- Assisted in system upgrades and integrated digital tools to improve operational efficiency.
- Delivered consistent, solution-oriented technical support with a strong focus on reliability and responsiveness.
- Recognized for professionalism, dedication, and a positive attitude that contributed significantly to technical operations.

IT Networking Officer

Kericho County Referral Hospital | Jan – Apr 2020

- Installed, configured, and maintained LAN/WAN devices including Cisco routers and switches.
- Improved network reliability by diagnosing and resolving system and connectivity issues.
- Supported security measures that protected hospital data and IT infrastructure.
- Assisted with routine maintenance and performance tuning of the hospital network systems.

Software Developer

Upwork & Fiverr | Remote | 2022 – 2024

- Delivered over 30 successful projects on Upwork and Fiverr with a 5-star rating across multiple categories.

- Developed custom websites, e-commerce platforms, and interactive dashboards using React, WordPress, and JavaScript.
- Created RESTful APIs and server-side logic using Node.js and Express for various client applications.
- Provided ongoing maintenance, bug fixing, and performance optimization services for international clients.
- Wrote and optimized technical documentation, including user manuals, system design documents, and README files.
- Specialized in front-end development, responsive UI design, and web performance enhancement.

STRENGTHS

- Clear Communicator – Can explain technical concepts to diverse audiences.
- Team Player – Collaborates well in cross-functional and remote teams.
- Detail-Oriented – Strong debugging and code review skills.
- Adaptable – Quickly learns new tools, frameworks, and methodologies.
- Efficient – Skilled in prioritizing tasks to meet deadlines without compromising quality.
