## CAREER OBJECTIVE

To leverage my strong foundation in Information Technology and education to deliver innovative solutions in IT support, software development, data analysis, and vocational training. I am committed to contributing to institutional and business growth by using my skills to enhance systems, mentor learners, and support organizational goals through technology.

---

## PROFESSIONAL SUMMARY

**Versatile and self-motivated IT professional with proven experience in ICT infrastructure management, technical support, programming, data analysis, and TVET-based training. Known for leading cloud adoption initiatives and delivering learner-centered ICT training. Passionate about knowledge sharing, system optimization, and fostering digital literacy. Currently expanding expertise through a Diploma in Technical Training and Data Science.**

---

## CORE COMPETENCIES

- **IT Support & Troubleshooting:** Skilled in diagnosing hardware and software issues and providing timely solutions to minimize downtime and enhance productivity.
- **Network Configuration & Security:** Knowledgeable in TCP/IP protocols, routing, switching, and basic security implementations like firewalls and anti-malware tools for secure system operations.
- **Data Analysis & Reporting:** Proficient in data collection and analysis tools including **SPSS, Stata, Advanced Excel, KoboToolbox/ODK, NVivo**. Capable of handling **quantitative and qualitative data** and preparing high-quality reports.
- **Software & Web Development:** Experienced in creating dynamic web applications using HTML, CSS, JavaScript, PHP, and MySQL. Proficient in object-oriented programming with Java, C++, and C.
- **Cloud Computing & System Migration:** Successfully led the migration of critical institutional resources to cloud platforms, improving scalability and access.
- **Technical & Vocational Training (TVET):** Well-versed in CBET for Computer Studies and Mathematics. Skilled in developing learner-focused instructional materials, assessments, and managing digital classrooms.

- **ICT Infrastructure Management:** Experienced in managing hardware, software, and system performance for education and business settings.
  - **Teaching & Facilitation:** Strong communicator able to break down complex technical concepts for learners of all levels.
- 

## PROFESSIONAL EXPERIENCE

### ICT Officer

*PEAKTECH Technical College – Dadaab, IFO Refugee Camp*

*Dec 2024 – Apr 2025*

- Maintained and developed ICT infrastructure
  - Installed and configured hardware and software
  - Implemented IT training plans
  - Provided IT and communication support
  - Developed systems documentation and user manuals
  - Ensured routine maintenance of ICT equipment
  - Facilitated training sessions for new employees on company policies and procedures
  - Led the migration of 30% of institutional digital resources to cloud storage
- 

### Short-course Certification Trainer

*PEAKTECH Technical College – Dadaab, IFO Refugee Camp*

*Dec 2024 – Apr 2025*

- Delivered short-term professional training in:
    - Data Science
    - Cloud Computing
    - Freelancing and Computer Networking
  - Developed course content and evaluated student outcomes
- 

### Sales Team Lead

*Progressive Credit Company*

*Apr 2023 – Sep 2023*

- Developed and implemented sales strategies
- Set revenue goals and sales targets
- Analyzed sales performance
- Built and maintained customer relationships
- Coached sales representatives
- Processed and filed sales documents
- Mentored representatives for career progression
- Observed the sales team's performance
- Prepared sales reports
- Applied strong problem-solving and decision-making skills

## **ICT Tutor**

*Amaso Technologies – Kimilili*

*Jul 2021 – Dec 2021*

- Taught ICT theory and practicals aligned to vocational curriculum
  - Assessed students and supported project-based learning
- 

## **Freelancer (Remote)**

*Jan 2021 – Present*

- Developed websites using HTML/CSS/JavaScript/PHP
  - Delivered over 100 projects in virtual assistance, data entry, and academic writing
  - Provided freelance data cleaning and analysis using statistical tools
- 

## **ICT Intern**

*County Assembly of Bungoma – ICT Department*

*May 2019 – Aug 2019*

- Diagnosed and resolved hardware, software, and end-user issues
  - Configured and managed backup and restore procedures
  - Installed and configured Windows Server 2016 operating system and SQL databases
  - Trained users on ICT tools and processes
  - Demonstrated expertise in Microsoft Windows client operating systems (XP, Vista, Windows 10) and Microsoft Office up to Office 2019
  - Troubleshoot PCs, laptops, and mobile devices
  - Conducted bulky printing and photocopying
  - Installed and configured computer systems using various build technologies
  - Performed routine backups and file archiving to support disaster recovery
  - Handled incoming client calls, processed emails, and logged technical issues
- 

## **EDUCATION**

### **Diploma in Technical Trainer – CBET (Computer Studies and Mathematics)**

*Kenya School of TVETs, Nairobi — Apr 2025 – Present*

### **Bachelor of Science in Information Technology (IT)**

*University of Kabianga — Jan 2021*

### **Kenya Certificate of Secondary Education (KCSE)**

*Friends School Mbakalo — B (66 points), Jan 2015*

### **Kenya Certificate of Primary Education (KCPE)**

*Lumukile PEFA Primary School — 326 Marks, Jan 2011*

## CERTIFICATIONS

- **Certification in Data Science**  
*Sonek Data School (May 2025 – Present)*  
*Focus: Statistical packages, quantitative and qualitative data analysis*
  - **Data Entry and Management**  
*Ajira Digital, 2021*
- 

## TECHNICAL SKILLS

**Programming Languages:** Java, PHP, C++, C, HTML, CSS, JavaScript

**Data Tools:** SPSS, Stata, NVivo, KoboToolbox/ODK, Tableau, Excel, MySQL

**Platforms & Software:** Windows OS, Linux, Dreamweaver, MS Office, Adobe Suite

**Networking:** TCP/IP, Switches/Routers, Windows Server

**Web & Cloud:** WordPress, Cloud Migration, XHTML, Responsive Design

**Training Tools:** Google Classroom, Moodle, CBET assessment templates

---

## PROJECT HIGHLIGHT

**SASSO Online Shopping Site – University Graduation Project**

- Developed an online shopping platform named SASSO as a requirement for graduation
- Implemented front-end interface and integrated payment and product modules
- Applied PHP and MySQL for dynamic data handling and user management

**Cloud Migration Lead – PEAKTECH**

- Led institutional digital resource migration to cloud services, increasing access and backup security
- 

## VOLUNTEER EXPERIENCE

- **Mentor**, I Choose Life Africa – University of Kabianga (Apr 2018)
- **Participant**, Ngarisha Ploti Hostel Cleanup Campaign – University of Kabianga (Nov 2019)

## LANGUAGES

- English – C1 (Advanced)
  - Kiswahili – C1 (Advanced)
- 

## HOBBIES & INTERESTS

- Reading technology articles
  - Playing football and table tennis
  - Listening to music
  - Freelance and creative writing
-
