ICT Trainer | Web Developer | Technical Support Specialist

Dedicated and adaptable ICT professional with 2+ years of hands-on experience in education, ICT support, and web development. Skilled in teaching, mentoring, troubleshooting IT systems, and delivering technical solutions to support learning environments. Experienced in building full-stack applications, managing IT infrastructure, and guiding students through practical coding projects. Passionate about contributing to student success and supporting institutions through digital transformation and training initiatives.

Technical Skills

- **IT Hardware & Support:** Troubleshooting desktops, laptops, printers, mobile devices, and other IT equipment.
- **Software & Installation:** Assisting in hardware and software installation procedures.
- **Business Process Analysis:** Experience analyzing business workflows to identify areas for improvement.
- **Office Software Proficiency:** Microsoft Office (Excel, Word, PowerPoint).
- **Frontend Technologies:** HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind.
- **Backend Technologies:** PHP, Python (Flask and Django) and Java(spring boot).
- **Database Management:** MySQL, PostgreSQL, SQLite.
- **Version Control:** Git, GitHub.
- **Cloud Platforms:** AWS, Vercel and render and Azure.
- **Project Management:** Agile methodologies (Jira and click up).

Soft Skills

- Initiative & Adaptability -quick to adapt to the working environment .
- Leadership -class representative and hackathon leader for the competition projects .
- Collaboration-Conduct coding projects as scrum master working with collaboration at Moringa school .
- Effective Communication-currently as I am doing online I make sure the communication is effective with the students.
 - Strong Problem-Solving-Any concern my students arise I look for possible solution to help them to solve their assignments.
 - Strategic Research & Reporting-During my attachment period I was doing research on the ICS College Management System and reporting to the ICT supervisor the sections that were not working effectively like Timetable part

Education

1. **Bachelor of Science in Computer Science- Kiriri Women's University of Science and Technology**
August 2021 to October 2024 | 2nd Upper Class Honour
2. **Software Engineering Full-Time Program- Moringa School - Graduated**
September 2024 to July 2025 | Full Stack Web Development

Certifications Overview

- **ReactJS for Beginners- Simplilearn- Completion Date: 26th November 2024**

- **JavaScript for Beginners- Simplilearn- Completion Date: 25th October 2024**
- **Networking Basics- Cisco Networking Academy- Completion Date: 24th December 2024**
- **Introduction to Cybersecurity Course- Cisco Networking Academy- Completion Date: 3rd January 2025**
- **Full Stack Web Development Internship Program- Edureka- Completion Date: 26th**
- **Software Security Specialist Certification – Cyber Shujaa Program (USIU-Africa, Serianu, & Microsoft) Graduation Date: 27th August 2025 (Expected)**

Covered secure coding practices, software vulnerability assessment, risk mitigation, identity and access management, and Microsoft-based security solutions.

- **Professional Development- Certification Ajira Women-Only GigUp Program – eMobilis + Ajira Digital July 2025 – Present (Evenings, Part-time)**

Trained in freelancing platforms, gig-readiness, career branding, and digital marketing for online jobs.

- **Experience**

1. **Freelance Tutor and Web Developer- Self-employed | Remote**

Mar 2025 to Present

Delivering personalized tutoring in web development and programming fundamentals to beginners and intermediate learners.

Designing and building responsive websites and applications using **HTML, CSS, JavaScript, React, Python, and Java**.

Guiding learners through real-world projects and best practices in clean code, debugging, and deployment.

2. **Web Development Volunteer- SaiKet Systems | Remote**

Feb 2025 to Mar 2025

Built user-friendly web interfaces and contributed to full-stack development projects.

3. **Full Stack Development Volunteer- Cognifyz Technologies | Remote**

December 2024 to January 2025

Developed RESTful APIs, integrated MongoDB, and optimized server-side performance.

4. **Web Development and ICT Support Attachment- ICS Technical College | On-site**

May 2024 to Jul 2024

Developed Online TimeTable Management and General ICT Technical Support

5. **Information Technology Expert (Attachment)- Gralex Farm Fresh Limited Company | Part-time, Hybrid**

October 2023 to January 2024

Enhanced digital systems, provided technical support, and maintained WordPress websites.

Projects

- **Smart Waste Management System (in progress)**

GitHub: github.com/bethkimani/Smart_Waste_Management_System

An AI-driven web app built with React.js and Tailwind CSS, featuring role-based dashboards and automated waste handling. Integrated Gemini AI for secure logins and real-time API data; backend planned with Node.js and PostgreSQL.

- **Kiriri Women's University Electronic Logbook for Industrial Attachment**

Final year project for digitizing student industrial attachment reporting. || [GitHub](#)

- **React Pets Adoption Platform**

A full-stack pet adoption app with React and backend integration. [Live](#) | [GitHub](#)

- **Moringa Inventory Management System**

Team project to manage school equipment. [Live](#) | [GitHub](#)

- **Django Healthcare API -Ministry of Health(MoH)**

Collaborated under an MoH IT Consultant to improve API security and performance for healthcare data. [GitHub](#)
