Jimmy Wire

ML Engineer | Predictive Analyst . I build what I trade.
Bristol, England, United Kingdom

Summary

Time /tʌɪm/ doesn't wait — so why should I build slow?

I design weapons for the future: apps that move money, rails that rewire payments, and machine learning models that see what most miss.

5+ years in the trenches with Java, Flutter, and Python taught me the craft. Wire gave me the battlefield. Watchers gave me the vision.

I'm not here to play it safe — I'm here to bend markets, break limits, and leave behind systems that outlive me.

If you're building bold, we're already speaking the same language.

Experience

Watchers

Machine Learning Engineer

September 2025 - Present (2 months)

Wire

Full Stack Engineer

October 2024 - Present (1 year 1 month)

Florence Inc.

Machine Learning Engineer

December 2023 - December 2024 (1 year 1 month)

United Kingdom

- Developing LSTM models for predictive analysis
- Aiming to revolutionize the finance space.

Mapped Vision

Android Developer

December 2018 - December 2024 (6 years 1 month)

United Kingdom

- Making android apps for the greater good.

Freelance

Mobile Developer

November 2023 - February 2024 (4 months)

IEC Consultants

Android Developer

August 2022 - November 2022 (4 months)

Mombasa County, Kenya

Education

University of the West of England

Bachelor of Science - BS, Computer Science · (September 2023 - 2027)
