WORK EXPERIENCE

Software Engineer

01/2025 – 09/2025

Ministry of Investments, Trade and Industrialization | Social Security House, UpperHill

- Automated the AGOA certificate application and award process enabling manufacturers export goods to the USA duty free reducing processing time from 4 weeks to 3-5 days after applying.
- Collaborated with software engineers from the ICT Authority of Kenya to develop and deploy a Database Management System for all manufacturers in Kenya to be used by the ministry.

Information Technology Attaché

01/2023 – 03/2023

Horticulture Research Institute (KALRO) | Delview, Kandara

- Assisted in the installation and maintenance of network infrastructure, including structured cabling, switches, and routers.
- Provided technical support to ICT issues across all departments in the organization

Student Customer Service Associate

02/2022 – 12/2022

Ecom Services Limited | Wilson Business Park, Lang'ata

- Moderated user generated photos and profiles in international dating sites to deactivate fraudulent members.

EDUCATION

Universita degli Studi di Urbino Carlo Bo (Italy)

09/2025- 02/2026

Internationalizing the Italian Academia in Africa (ITACA programme)

Went to Italy to undertake courses in Economics and Business Management, International Business Management, Services Marketing and Corporate Strategies in a five-month project focused on knowledge exchange and innovation between African and Italian universities. The scholars selected had to have academic backgrounds from specific African universities selected to participate in the programme. The experience broadened my perspective through exposure to an international learning environment, interaction with diverse cultures and a practical understanding of how business and management are approached on a global scale.

Mama Ngina University College

04/2024- 08/2024

Strengthening Kenya's Innovation Ecosystem (KIEP-SKIES programme)

Participated in a four-month digital skills training programme where I undertook courses in Data Science and Cybersecurity. The programme was an initiative of the Kenya Industry and Entrepreneurship Project implemented by

the Ministry of Investments, Trade and Industry meant to enhance the employability of Kenyan Youth in the digital space.

Jomo Kenyatta University of Agriculture and Technology 09/2019- 12/2023

Bachelor of Science Information Technology (Second Class Upper Division)

Mang'u High School

02/2015- 11/2018

Kenya Certificate of Secondary Education

SKILLS

Technical Skills: Python programming | Web Development (HTML, CSS, Javascript, Django) | SQL | PostgreSQL | Machine Learning and Deep Learning | Cybersecurity | Network troubleshooting

Soft Skills: Communication | Teamwork | Problem-solving | Adaptability | Time Management

PROJECTS

DIABETIC RETINOPATHY DETECTION SYSTEM

My innovative project in Mama Ngina University was about developing a Convolutional Neural Network model to assist eye specialists in the timely and accurate diagnosis of Diabetic Retinopathy, a condition that affects the retina of diabetic patients and can lead to vision loss if detected late. Data to train the model was obtained from Kaggle and after data preprocessing, I used tensorflow Python library to build the model which was later integrated into a web application so as to enable timely and diagnosis in real time.

SWOT ANALYSIS FOR PENSARECASA'S ENTRY INTO FRANCE

As part of the ITACA coursework, I was assigned to be part of a group tasked to conduct a SWOT analysis for Pensarecasa, a furniture retail company in Italy which was aiming to enter the French furniture market. We assessed internal strengths and weaknesses alongside external opportunities and competitive threats within the French furniture retail sector. We also did market analysis, PESTEL analysis, customer segmentation and created two potential buyer personas likely to purchase furniture from Pensarecasa. Finally, we also presented recommendations that we thought Pensarecasa should follow while entering the French market.

REFEREES

Joseph Irungu

ICT Director, State Department for Industry
