SKILLS

Cybersecurity Risk Assessment	SIEM Tools	Penetration Testing & Vulnerability Assessment	Incident Response & Escalation
API Security & Payment Systems Protection	Digital Banking & Fintech Security	IT Infrastructure Monitoring & Compliance	Threat Intelligence Analysis
Cross-Functional Collaboration	Secure Product & Payment Gateway Rollout		

TECHNICAL SKILLS

Cybersecurity Tools and Practices:	Kali Linux, Nmap, Wireshark, API Security	Programming and Development:	HTML, CSS, JavaScript, Java, Python
Mobile Development:	Android Studio	Databases:	MySQL

WORK EXPERIENCE

Security Analyst: Digital Banking, Innovations and Payments Premier Bank Kenya

02/2025 - Present

- Strengthening the bank's cybersecurity posture by monitoring IT architecture, identifying vulnerabilities, and implementing proactive risk mitigation strategies.
- Enhancing threat detection by analyzing security logs and intelligence feeds through SIEM tools, enabling timely response to suspicious activities.
- Securing the rollout of new fintech products and payment gateway integrations by collaborating with the innovations team to design compliant security frameworks.
- Improving incident response efficiency by streamlining escalation processes and aligning with cross-functional IT teams.
- Conducting regular penetration testing and vulnerability assessments, reducing potential exposure to cyberattacks.
- Delivering cybersecurity awareness training to staff, promoting a security-first culture across banking operations.

Assistant Project Management Officer: Digital Banking, Innovations and Payments Premier Bank Kenya

01/2025 - 02/2025

- Conducted end-to-end testing of digital banking solutions, including mobile banking apps and internet banking platforms, ensuring seamless functionality and optimal system performance.
- Enhanced user experience and security by leading usability testing and QA processes to identify and resolve system inefficiencies.
- Collaborated with cross-functional teams to assess, integrate, and implement innovative payment solutions while maintaining strict compliance with industry standards.
- Supported project planning and execution by preparing documentation, progress reports, and risk assessments for senior management.
- Streamlined workflows by coordinating between IT, product, and compliance teams, accelerating solution delivery timelines.
- Contributed to the successful launch of new digital products by conducting pilot testing, gathering customer feedback, and implementing improvements before full rollout.

WORK EXPERIENCE

Intern: Digital Banking, Innovations and Payments Premier Bank Kenya

10/2024 - 12/2024

- Assisted in the development and implementation of digital banking strategies that improved customer experience and service efficiency.
- Gained practical cybersecurity expertise while working under the Information Security Officer and contributed to securing the bank’s payment systems.
- Supported innovation initiatives that enhanced banking services and optimized payment solutions.
- Conducted research on emerging digital banking trends and provided recommendations that informed process improvements and strategic decision-making.

EDUCATION

Bachelor of Science in Applied Computer Technology United States International University-Africa (USIU-A)

09/2021 - 09/2025

- Cryptography and Network Security
- Information System Security
- Database Systems Management
- Data structures and Algorithms
- Operating Systems
- Object-oriented Programming

PROFESSIONAL TRAINING AND CERTIFICATIONS

CompTIA Security+ (06/2025)	API Security Fundamentals (01/2025)
API Security for PCI Compliance – Jan 2025 (01/2025)	Securing API Servers (01/2025)
OWASP API Security Top 10 and beyond! (01/2025)	Cisco Cyber Threat Management (08/2024)
Cisco Certified Network Associate (CCNA1) (07/2024)	Mastercard Cybersecurity Virtual Experience Program on Forage (04/2024)
Junior Cyber Security Analyst Career Path Cisco (01/2024)	SheCodes Basics (09/2023)

INTERESTS

- Cybersecurity Innovations
- Digital Banking and Fintech
- Mobile Application Security
- Ethical Hacking and Penetration Testing
