

Brian Kipkoech

I am a dedicated and self-driven software developer with expertise in backend development. I have experience building APIs using **Java** as the primary language, working with **Spring Boot** framework, Django, using **Microservices based architecture** and working with databases such **MySQL** and **Postgresql**. I also have front-end concept technologies like **Angular**. I am committed to continuous learning and applying industry best practices to contribute and deliver software solutions.

Experience

Flag42 Software Company - Backend Software Developer(Intern)

Responsibilities:

- Designed and developed Microservice using Spring Boot to support various application features.
- Implemented business logic and data access layers using JPA and Hibernate for seamless interaction with MySQL databases.
- Built secure and scalable microservices architecture to support modular and maintainable codebases.
- Collaborated closely with frontend developers to integrate backend services with react and angular applications.
- Participated in code reviews and agile development processes including daily standups and sprint planning.
- Utilized tools such as Postman and Swagger for API testing and documentation.
- Gained hands-on experience in using version control systems like Git and deployment tools.

Emobilis Technology Institute - Backend Developer (Trainee)

Responsibilities:

- **Web Application Development:** Gained hands-on experience in building applications using Python Django, focusing on creating robust and scalable backend systems.
- **Database Integration:** Developed proficiency in connecting Django appl
-
- ications with databases, ensuring smooth data management and retrieval.
- **Frontend Development:** Acquired skills in frontend technologies, including HTML, CSS, and Bootstrap, to design responsive and user-friendly interfaces.
- **Full-Stack Collaboration:** Worked across both frontend and backend components, ensuring seamless integration and functionality in web applications.
- **M-Pesa Integration:** Successfully integrated M-Pesa payment services into web applications, enabling secure and efficient mobile payment processing.

Postal Address: P.O BOX 48, Litein.

SKILLS

- Java
 - Spring Boot
- Microservices
 - API-Gateway
 - Eureka
 - Spring Cloud
- REST API
- Database
 - Mysql
 - Postgres
- Linux/Unix
- Web development.
- Git Collaboration
- Angular
- Docker

CLOUD TECHNOLOGIES

AWS

- EC2

Interesting areas of specialization

- Backend Software Development.
- REST API
- Spring Boot
- Java Data Structures such as Hashmap, HashSet, ArrayList, etc
- MySQL i.e. queries and connection with spring boot.
- Web development.
- Github

Responsibilities:

- **Backend System Development and Maintenance:** Engineered and maintained robust backend systems using Java, focusing on implementing and refining key functionalities of the ERP system. This involved designing scalable architecture, integrating with diverse data sources, and ensuring seamless data flow and system reliability.
- **Collaborative Software Development:** Actively collaborated with a multidisciplinary development team, contributing to various software projects. Engaged in the full software development lifecycle, including requirement analysis, design, implementation, and testing. Participated in daily stand-ups, sprint planning, and retrospectives to ensure project alignment and progress.
- **Technical Skill Advancement:** Advanced technical skills in backend technologies, including Java frameworks such as Spring Boot and Hibernate. Gained proficiency in building and consuming RESTful APIs, optimizing SQL queries, and employing design patterns to enhance code quality and maintainability.
- **Software Optimization and Enhancement:** Applied advanced Java techniques and best practices to optimize backend performance and improve software solutions.

LANGUAGES

English

Kiswahili

EDUCATION

The Co-Operative University, Karen, Kenya — *Computer Science*

2022 - 2023

K-Salat High School, Bomet, Kenya — *Kenya Certificate of Secondary Education*

2018 - 2021

Ngererit Primary School, Bomet, Kenya — *Kenya Certificate of Primary Education*

2007 - 2017

Projects

- Notification Microservice - (SMS,EMAILS)
 - Backend Developer
 - Spring boot, Microservice , Postgresql
- Learning Microservice
 - Backend Developer
 - Spring boot, Microservice , Postgresql
- Centralised Contact Management System
 - Backend Developer
 - Spring boot, Microservice , Postgresql
