Professional Summary

Dynamic and versatile technology professional with a broad skill set and a passion for leveraging technology to solve real-world challenges. Adept at using analytical thinking to optimize processes, improve user experiences, and drive measurable business value. Recognized for a proactive mindset, strong problem-solving abilities, and a commitment to continuous learning and innovation in fast-paced environments.

SKILLS

Technical Skills: Python with Flask | SQLite | JavaScript | React | HTML | CSS | Figma | Git | Window and Linux administration.

Cyber Security Skills: Compliance Frameworks such as ISO 27001GDPR | SIEM Tools: Splunk, IBM QRadar | OWASP

Virtual Assistance Skills: Slack | Research | Microsoft office suite | Google Workspace | Asana | Zoom

Soft Skills: Critical thinking | Teamwork | Attention to detail | Communication

WORK EXPERIENCE

Remote Back End Developer – Upwork

Freelancer [11/2024 – Current]

- Web Scraping Solutions: Developed automated web scraping solutions using Python and Scrapy to collect market research data from competitor websites, reducing research time by 50%.
- API Integration: Successfully integrated third-party APIs using Python and Flask, enhancing backend functionality and streamlining front-end UI testing. This integration improved data flow, reduced testing time, and ensured more accurate functionality validation.

Contract Staff – Licensing Management System Digitization & Quality Assurance Project/ Standards | Type Approval Division

Communications Authority of Kenya [09/2021 – 05/2023]

City: Nairobi | Country: Kenya

- Engaged in quality assurance for the digitization of licensing management systems whereby we worked collaboratively in a multidisciplinary team (IT, legal, licensing standardization and compliance).
- Facilitated the management of type approval process for telecommunication equipment deemed to process or receive any form of communication in Kenya.

Intern – Cyber Security Division

Communications Authority of Kenya [03/2021 – 08/2021]

City: Nairobi | Country: Kenya

- Assisted in planning logistics during cyber security conference ie, the Huawei 5G Core summit + AR(June17th 2021).
- Was sensitized on ISMS - ISO 27001:2013 and QMS - ISO 9001:2015.

ICT Officer

Century Microfinance Bank [06/2016 – 12/2016]

City: Nairobi | Country: Kenya

- Managed bank applications across a physical and virtual private network, ensuring seamless financial service provision

Projects

Title: Raygen Solar Solutions

Description: Raygen Solar Solutions

RayGen Solar Solutions is a web application dedicated to solar lighting solutions. This platform enables customers to explore various solar lighting products, understand their benefits, and make informed purchasing decisions. Additionally, it assists companies to manage their inventory, tracking orders, and offering customer support through user reviews.

Tech Stacks: Front-End: React with Javascript | Back-End: Python and Flask | Database: SQLAlchemy | UI Design: CSS/Bootstrap/MUI | Version Control: Github

Link: [Raygen Solar Solutions](#)

Title: COOLBLOG

Description: Coolblog is a web platform for expressing your thoughts and ideas through blogs. Has Backend API integration which utilizes JSON Server to create a RESTful API that handles backend operations, supporting GET requests to retrieve blogs and POST requests.

Tech Stacks: Front-End: React with Javascript | Back-End: JSON Server (a lightweight Node.js tool that simulates a RESTful API using a JSON file as the data source) | UI Design: Tailwind CSS/MUI | Version Control: Github
