

Clarion Isige

Nairobi, Kenya

+254794156707 ✉ clarionisige@gmail.com  <https://www.linkedin.com/in/clarionisige>  <https://github.com/CLARION-isige>

Summary

Python developer with AI/ML experience and scientific computation. Experienced in deploying scalable AI solutions using Docker and optimizing CI/CD pipelines for machine learning workflows. Passionate about AI and leveraging deep learning frameworks, no-code and low-code tools to deliver impactful solutions, aiming to drive data-driven decision-making.

Education

Artificial Intelligence East Africa

May 2025 - August 2025

AI Policy and Governance

WorldQuant University

Jan 2024 - Dec 2024

Applied AI Lab: Deep Learning For Computer Vision, Computer Science

University of Nairobi

Aug 2020 - Jun 2024

Microprocessor Technology and Instrumentation, Computer Technology/Computer Systems Technology

Work Experience

Wise & Agile Solutions

GenAI Specialist Consultant

July 2025 – Aug 2025

- Architecting AI-driven scientific workflow automation using LangChain and Python.
- Employed pytest to test data pipelines and AI integrations.
- Utilized Docker containers for reproducible computational and system environments.

Upwork

Freelance AI Engineer

April 2025 – Present

- Built Python-based data collection and transformation pipelines for scrapping LLM training datasets.
- Applied Unix command-line tools to automate data preparation and simulation workflows.
- Developed scripts for data parsing and validation with error-handling mechanisms.

ICEA LION Group

Jun 2024 - Mar 2025

Data Science Intern

Nairobi, Kenya

- Utilized Domo to create insightful visualizations that identified key trends and effectively communicated findings to stakeholders.
- Built and deployed machine learning models for regression and clustering on IBM Cloud, achieving prediction accuracies exceeding 75%.
- Constructed churn models to identify churn rate and features that influence motor insurance uptake improving marketing efforts.
- Researched and proposed integration of large language models to inform the AI Governance Strategy, demonstrating a strong passion for generative AI.
- Deployed a fault-tolerant and containerized RAG-enhanced chatbot to address employee queries on data governance and human resource queries.
- Initiated the concept of a dedicated data analytics day to foster knowledge sharing and drive innovation within the team and training data champions to foster data-driven decisions and culture

Education Development Trust

Nov 2022 - Jan 2023

Applied Data Analyst

Nairobi, Kenya

- Provided technical expertise in data analysis to the Presidential Working Party on Education Reforms in Kenya, enhancing decision-making processes
- Conducted in-depth analysis of stakeholder submissions aligned with recommended Terms of Reference, utilizing Excel.
- Collaborated effectively with diverse teams and co-workers, developing strong networking skills.

Skills

- **Programming & Tools:** Python, LangChain, Llama index, Streamlit, Jupyter Notebook, Gen AI Tools(Cohere, Mistral), CI/CD, Computer Vision, n8n
- **Cloud & Platforms:** GCP, IBM Cloud Pak Azure, AWS Bedrock, Docker, Git, Github Workflows, Pytest
- **Data & Analysis:** SQL, Data Management, Data Analysis, Microsoft Office Suite, Jira
- **Professional Skills:** Business Acumen, Workflow Automation, Interpersonal Skills, Teamwork

Certifications

- CIPIT's Data Protection Course
- Linux and Kubernetes Cloud Essentials(Ongoing)
- Applied Data Science Lab
- AWS Cloud Essentials.
