### PROFESSIONAL SUMMARY

Results-driven and enthusiastic Computer Science graduate, with a strong foundation in software development, agile teamwork, system configuration and trouble shooting. A quick learner and a proactive team player eager to grow a career in innovative e-government solutions. Skilled in SQL scripting, report development and documenting technical solutions with strong communication and presentation abilities. Possesses a proven ability to adapt to new technologies and thrive in fast-paced environments.

### WORK EXPERIENCE

|                     |        |                                           |
|---------------------|--------|-------------------------------------------|
| May – August (2024) | Intern | Kenya Institute of Curriculum Development |
|---------------------|--------|-------------------------------------------|

- Assisted in design, configuration and testing of digital learning platforms.
- Supported the diagnosing and resolution of technical issues in the platforms.
- Collaborated in an Agile team to optimize software applications
- Supported system health checks and maintenance, ensuring smooth platform performance.
- Helped prepare end-user and technical documentation for deployed solutions

### EDUCATION

|            |                                                        |                                           |
|------------|--------------------------------------------------------|-------------------------------------------|
| 2021- 2025 | Jomo Kenyatta University of Agriculture and Technology | Bachelor of Science –<br>Computer Science |
|------------|--------------------------------------------------------|-------------------------------------------|

|            |                        |                      |
|------------|------------------------|----------------------|
| 2017 -2020 | Mary Hill Girls School | Grade A- (79 points) |
|------------|------------------------|----------------------|

### TECHNICAL SKILLS

- **Programming & Scripting:** Python, C++, JavaScript
- **Database & SQL:** SQL Server, Oracle, MySQL (data queries, reports, scripting)
- **Report Development:** Microsoft Excel (advanced), Google Analytics, basic SSRS
- **Web Development:** HTML, CSS, JavaScript
- **Systems & Tools:** Windows, Linux, Networking, Figma, JIRA basics
- **Other Skills:** Cloud Computing, Data Structures, UI/UX Design, Agile & Waterfall methodologies

## CERTIFICATIONS

---

- **CISCO:** Introduction to packet Tracer.
- **Microsoft:** Cloud computing with Microsoft Azure

## ACHIEVEMENTS & PROJECTS

---

### *ConnectCare*

Built a platform to match elderly individuals with caregivers, including **database integration** and user interfaces.

<https://github.com/muthonih/ConnectCare.git>

### *Karplan Ventures Website*

Designed and developed a **business website** for Karplan Ventures to establish a digital presence.

<https://github.com/muthonih/Karplan-ventures.git>

### *Budget Tracker App*

Created a **JavaScript-based** web app to manage and visualize financial data.

<https://github.com/muthonih/budget-tracker.git>

## SKILLS & INTERESTS

---

1. COTS software configuration and customization
2. SQL scripting (queries, stored procedures, troubleshooting)
3. Technical documentation & end-user support
4. Strong written and verbal communication
5. Interests: E-government solutions, software testing, cybersecurity
