

BENSON OKONYO MITIGOA - CURRICULUM VITAE

Contact Information:

- Address: P.O BOX 126-50105 BUKURA, KAKAMEGA
- Mobile: (+254) 7913 67912
- Email: okonyobenson@gmail.com
- Nationality: Kenyan

PROFESSIONAL SUMMARY

Strategic full-stack software engineer and product leader with 6+ years of experience building, launching, and scaling digital platforms from MVP to market. Proven track record in leading cross-functional teams, driving product development lifecycles, and delivering data-driven solutions across web and mobile platforms. Successfully managed end-to-end development of multiple SaaS products, including serving as the sole technical architect for infanect.com from concept to launch.

Expertise in combining technical proficiency with business strategy to drive user engagement, operational efficiency, and sustainable growth in startup environments. Strong background in agritech, fintech, and marketplace platforms with demonstrated ability to work with stakeholders, manage budgets, and scale operations.

CORE COMPETENCIES

Technical Leadership & Product Management:

- Full-stack development across web and mobile platforms (React, Next.js, Python/Django, PHP,Flutter)
- MVP development and product lifecycle management
- UX/UI design and prototyping (Adobe XD, Photoshop, Illustrator)
- Data analysis and performance metrics optimization
- RESTful API development and third-party integrations

Business Operations & Strategy:

- Digital product launching and scaling operations
- Customer development: interviewing, prototyping, pivoting
- Financial planning and budgeting for tech projects
- Cross-functional team leadership and stakeholder management
- Agile project management and milestone delivery

Data-Driven Decision Making:

- Database design and optimization (MySQL, PostgreSQL)
- Performance analytics and customer feedback loops

- Growth metrics analysis and user engagement optimization
- Cloud infrastructure management (Docker, DigitalOcean)

PROFESSIONAL EXPERIENCE

Technical Lead | Infanect.com

January 2025 – Present *Sole architect responsible for MVP to launch of comprehensive web application and mobile app*

- **Product Development:** Led end-to-end development of infanect.com platform from initial concept to successful market launch, serving as the only technical resource
- **Full-Stack Architecture:** Designed and implemented scalable web application and mobile app using modern tech stack (React/Next.js frontend, Python/Django backend, Flutter mobile app)
- **Business Strategy:** Conducted customer development interviews, market research, and iterative prototyping to ensure product-market fit
- **Growth Metrics:** Implemented analytics infrastructure to track user engagement, retention, and conversion metrics
- **Operational Efficiency:** Established development workflows, deployment pipelines, and performance monitoring systems

Full Stack Software Engineer | Ujuzi Kilimo (AgriTech)

August 2023 – February 2025 (Contract)

- **Product Leadership:** Collaborated with cross-functional teams to develop sensor integration platform serving smallholder farmers across Kenya
- **Data Analytics:** Implemented algorithms for soil data analysis and developed visualization tools providing actionable insights to 500+ farmers
- **AI/Machine Learning:** Designed and trained machine learning models using spectral and RGB data to accurately predict NPK levels and estimate crop yield, increasing precision of fertilizer recommendations.
- **Backend Engineering:** Developed and maintained scalable APIs and backend services using PHP/Laravel and Python, integrating with real-time sensor data and AI pipelines.
- **Mobile Development:** Led migration from Kotlin to Flutter for cross-platform compatibility, improving user engagement by 40%
- **Stakeholder Management:** Worked closely with hardware engineers, agronomists, and farmers to gather requirements and iterate on product features
- **Performance Optimization:** Enhanced sensor software performance, reducing processing time by 30% and memory usage by 25%

Key Achievement: Farmsuite mobile app launched successfully with 90% user satisfaction rate

Full Stack Software Engineer | Chamasoft (FinTech SaaS)

February 2024 – October 2024 (Part-time Contract)

- **SaaS Platform Development:** Built and maintained investment group management platform handling \$2M+ in tracked investments
- **API Architecture:** Designed and implemented secure APIs facilitating seamless communication between web and mobile platforms
- **Database Optimization:** Managed and optimized databases to handle large-scale financial data efficiently and securely
- **Feature Development:** Led development of new features for investment tracking, group management, and communication tools
- **Mobile Application:** Developed Android application using Kotlin, achieving 95% crash-free rate

Assistant Software Developer | Shree Cutch Satsang Academy

February 2022 – July 2023

- **Legacy System Modernization:** Successfully modernized school ERP system, improving performance by 50%
- **Cross-Platform Development:** Developed and maintained both iOS and Android applications for 2,000+ students and staff
- **API Integration:** Integrated REST APIs with multiple bank APIs for seamless financial transactions
- **Team Leadership:** Mentored junior developers and documented technical processes for team onboarding
- **Field Testing:** Led validation testing processes ensuring 99.9% system reliability

Full Stack Web Developer | M-MAJI LTD (Water Management SaaS)

August 2021 – January 2022

- **Project Management:** Managed development milestones from conception to delivery within budget and timeline constraints
- **Client Communication:** Maintained regular client communication, collected feedback, and addressed concerns throughout development cycle
- **Third-Party Integration:** Collaborated with backend developers to design and integrate APIs with water management systems
- **Mobile Complement:** Developed mobile app complementing web application, improving user experience and engagement

Freelance Developer & Consultant

January 2017 – December 2019

- **Business Development:** Successfully delivered 15+ projects including e-commerce platforms, food delivery systems, and educational platforms

- **SEO & Marketing:** Implemented Google-based SEO strategies and managed ad campaigns within client budget constraints
- **Notable Projects:**
 - **tetop.co.ke:** E-commerce platform development
 - **doleout.co.ke:** Food delivery platform serving Juja region
 - **nifunze.co.ke:** Online virtual classroom during COVID-19 (500+ students)
 - **jaramogireferral.go.ke:** Hospital website redesign (team collaboration)
 - **sironmedicalcentre.co.ke:** Hospital website and HR management system

EDUCATION

Bachelor of Innovation Technology Management | *Second Class Honors (Upper Division)*
Jomo Kenyatta University of Agriculture and Technology | 2016-2021

Kenya Certificate of Secondary Education | *Mean Grade: A-*
St. Peters Boys Mumias High School | 2012-2015

ACHIEVEMENTS & RECOGNITION

- **JKUAT Innovation Day Bootcamp - Best Project 2017**
- Successfully launched 5+ digital products from MVP to market
- Led technical teams across multiple successful project deliveries
- Maintained 95%+ client satisfaction rate across all freelance projects

KEY PERFORMANCE METRICS

- **Product Development:** 6+ successful MVP launches with continuous iteration
- **User Engagement:** Consistently achieved 85%+ user retention rates across platforms
- **Team Leadership:** Managed cross-functional teams of 3-8 members
- **Growth:** Contributed to user base growth of 200%+ across multiple platforms
- **Operational Efficiency:** Reduced development costs by 30% through process optimization

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Next.js, jQuery

Backend: Python, Django, PHP, Java

Mobile: Flutter, Kotlin, Android, iOS development

Database: MySQL, PostgreSQL, database optimization

Cloud & DevOps: Docker, DigitalOcean, Git, version control

Design: Adobe XD, Photoshop, Illustrator, UI/UX prototyping

Analytics: Data analysis, performance metrics, customer feedback tools
