
DANIEL MUTHOMI NJERU

Nairobi ♦ +254-739-515736 ♦ thedanielmuthomi@gmail.com

PROFESSIONAL SUMMARY

Dedicated, skilled and versatile engineer with a strong background in hardware design, firmware development and software engineering. Eager to contribute technical acumen, hands-on experience as well as team work and leadership in the role I am in.

SKILLS

Programming Languages:	C/C++, Python, Java, JavaScript, HTML, CSS, Verilog, Micropython
Tools and Frameworks:	MQTT, LoRa, HTTP, TCP, CANBUS, RS485, RS232, RTOS, Mobile Money APIs, LTE, MYSQL, Device Trees, Kuberenetes
Embedded Systems and IoT:	IoT technology design and implementation, Electrical circuit design, simulation and analysis, Schematic and PCB CAD design, Digital engineering (FPGA)
Technologies:	STM32, ESP32, RP2040, Atmel, Raspbian system design, PC architecture and assembly
Other Expertise:	Systems automation scripting, Hardware and Firmware debugging, System optimization, Business continuity planning and risk assessment (certified), Cybersecurity principles and threat management (certified)

WORK HISTORY

Embedded systems and IoT engineer, 12/2022 to date.

Gearbox Europlacer - Nairobi

- Interpreted user requirements into technical products
- Increased efficiency by creatively ideating solutions in product development
- Implemented design and firmware skills to satisfy customer needs on designated projects
- Skillfully led diagnosis and troubleshooting thus reducing loss and improving future version iterations
- Managed a team of junior engineers in product delivery while training them on company procedures
- Led client meetings effectively communicating project progress and understanding on development lifecycle
- Facilitated product launch ensuring effective transition from manufacturing to deployment

Intern, 12/2021 to 11/2022

Gearbox Kenya – Nairobi

- Facilitated PCB manufacturing delivering printed circuit boards for internal use and customer need
- Achieved skills on microcontroller programming and knowledge implementation on client projects
- Conducted new company machinery commissioning through electrical wiring and installations
- Instructed Gearbox Academy classes on electronic hardware design impacting knowledge on eager learners joining the industry

Attachment, 06/2019 to 09/2019

Kenyatta National Hospital - Nairobi

- Installed, tested, and commissioned electrical and electronic work, equipment, and machinery.
- Conducted maintenance and servicing of electronic equipment and contributed to the design and wiring of new installations. Demonstrated excellent debugging skills in troubleshooting electronic systems.

EDUCATION

B.SC: ELECTRICAL AND ELECTRONIC ENGINEERING, 2024

University of Nairobi - Nairobi, Kenya

DIPLOMA: BUSINESS AND INFORMATION TECHNOLOGY, 2023

Strathmore University - Nairobi, Kenya

Merit

KENYA CERTIFICATE OF SECONDARY EDUCATION

Mang'u High School - Thika, Kenya

A- (A minus)

CERTIFICATION

- **Project Management Fundamentals** by IBM SkillsBuild, **July 2025**
Gained practical skills, tools, techniques and knowledge on initiating, executing and closing projects as well as handling changes while balancing scope, schedule and cost for a project.
- **Special Session: Business Continuity** by ITC SME Trade Academy, **December 2024**
Learned strategies for risk assessment, crisis management, and developing business continuity plans to ensure organizational resilience during disruptions.
- **Cybersecurity Fundamentals** by IBM SkillsBuild, **November 2024**
Gained foundational knowledge of cybersecurity principles, threat identification, and best practices for securing systems and data in modern digital environments.
