PROFESSIONAL PROFILE

IT Support Specialist and Systems Administrator with hands-on experience in end-user support, infrastructure management, and cloud-native systems. Skilled in Windows, Linux, and iOS support, GLPI ticketing systems, and network administration. Proven ability to troubleshoot complex technical issues, manage helpdesk workflows, and deliver seamless technology experiences in fast-paced environments.

CORE IT SKILLS

Ticketing Systems:	GLPI, Helpdesk management, Incident & Request tracking, SLA compliance
OS Support:	Windows 10/11, Windows Server, Linux (Ubuntu/CentOS), iOS & macOS, Android
System Administration:	Active Directory, Group Policy, DNS/DHCP, User account management, Patch management
Networking:	LAN/WAN, TCP/IP, VPN, Wi-Fi troubleshooting, network security basics
Cloud & Infrastructure:	Google Cloud Platform (GCP), AWS, Kubernetes, Docker, Terraform, Ansible
Software & Tools:	Microsoft 365 Admin, PostgreSQL, MySQL, MongoDB, Firebase
Security:	Cybersecurity fundamentals, endpoint hardening, access control, CyberShujaa training
Dev Tools:	JavaScript, Python, React, Node.js, CI/CD, GitHub Actions
Soft Skills:	User training, documentation, stakeholder communication, Agile/Scrum, leadership

PROFESSIONAL EXPERIENCE

ICT Support Technician | General Post Office | Jan 2026 – Present

- Administered GLPI ticketing system to log, track, and resolve user-reported incidents and service requests, maintaining SLA compliance and producing weekly reports for management.
- Provided Level 1 & 2 helpdesk support for Windows 10/11, Windows Server, Linux (Ubuntu/CentOS), iOS, and Android devices across multi-user environments.
- Managed Active Directory user accounts, group policies, and role-based access control for organizational systems and networked resources.
- Installed, configured, and maintained hardware and software assets including laptops, printers, access points, and IP phones.
- Set up and maintained LAN/WAN infrastructure, troubleshoot network connectivity, VPN access, and wireless issues for end users.
- Deployed and maintained servers running Linux and Windows Server, including OS patching, performance monitoring, and backup scheduling.
- Documented IT procedures, network diagrams, and user guides to support knowledge transfer and reduce repeat incidents.
- Onboarded and trained staff on IT systems, Microsoft 365 suite, and cybersecurity best practices.

Software Developer & Cloud Infrastructure Consultant | **MUIAA Labs** | *Jan 2024 – Present*

- Provisioned and managed cloud infrastructure on GCP and AWS using Terraform and Ansible, ensuring 99.9% uptime.
- Deployed and administered Kubernetes clusters, coordinating with cross-functional teams for secure, data-driven deployments.
- Built and maintained full-stack applications (Next.js, Django, Node.js, PostgreSQL), integrating CI/CD pipelines via GitHub Actions.
- Conducted security hardening reviews and implemented access controls across cloud environments.

Software Developer | **HealthyU-2000** | *Jul 2024 – Jan 2025*

- Developed and maintained health & wellness platforms (React Native, Next.js), ensuring cross-platform stability across web and mobile.
- Built analytics dashboards and reporting interfaces; diagnosed and resolved performance bottlenecks.
- Integrated secure REST APIs and managed user data in compliance with data-protection standards.

Front-End Developer | **SwiftPlay Devs** | *Dec 2023 – Jun 2024*

- Designed and implemented UI components for fintech platforms, ensuring cross-browser responsiveness and accessibility.
- Integrated RESTful APIs and created technical documentation for deployment and maintenance workflows.

Technical Project Manager & Business Developer | **Ngeni Labs** | *Oct 2022 – Jun 2024*

- Managed blockchain and AI-driven projects end-to-end, coordinating Agile sprints and stakeholder communications.
- Authored technical proposals that secured partnerships and pilot implementations across emerging-market clients.

RELEVANT PROJECTS

- ChamaConnect (chamaconnect.co.ke) — Fintech platform: designed scalable backend, managed cloud deployment and uptime monitoring.
- EcoLink (eco-link-web-application.vercel.app) — Real-time data dashboard: infrastructure setup, API integration, and system performance tuning.
- SkillChain (skillchain.space) — Blockchain credential platform: server deployment, security hardening, and system administration.
- Timizia (timizia.vercel.app) — Productivity app: full-stack development with analytics, CI/CD pipeline, and cloud hosting.

EDUCATION

MSc Information Technology – Software Engineering | Bugema University | Ongoing

BSc Computer Science (Upper Second Class Honours) | Rongo University | 2017–2021

CERTIFICATIONS & TRAINING

- Kubernetes & Cloud Native Associate (KCNA) — Linux Foundation (2025)
- Cybersecurity Analysis — CyberShujaa (Ongoing)
- Aspire Young Leadership Program — Harvard University (2025)
- React Certification — Andela React Program (2023)
- Computer Networking & Digital Network Security (2021)

FELLOWSHIPS & LEADERSHIP

- beVisioneers Fellow — Mercedes-Benz (2025)
- McKinsey Forward Fellow (2024)
- Mentor — DOT Kenya, Web3 & AI Youth Innovation Projects (2023–2024)
