 - Commvault Certified Solutions Architect
 - Veritas NetBackup Appliance Certification
-

PROFESSIONAL EXPERIENCE

Technical Support Specialist

Spartec Consortium-Africa (SCA) Limited — Nairobi

2022 – Present

- Provide first-line and second-line IT support to users across multiple client environments (remote and onsite)
- Diagnose and resolve hardware, software, network, email, and access-related issues
- Administer Microsoft 365 (user accounts, MFA, permissions, licensing, access control)
- Support endpoint management, patching, and device control using Endpoint Central
- Configure and maintain Windows Server services (Active Directory, DNS, DHCP, Group Policy)
- Manage user onboarding and offboarding processes, including device setup and access provisioning
- Monitor systems and infrastructure using OpManager, identifying and resolving performance issues

- Support backup and recovery solutions (including Cryoserver) to ensure data availability
- Perform preventive maintenance for network devices, servers, and IT systems
- Maintain accurate IT documentation, asset inventory, and support procedures

Key Projects & Impact:

- Operationalized IT support using ManageEngine ServiceDesk Plus and ServiceNow, streamlining incident, service request, and user support workflows to improve response and resolution times
 - Deployed Endpoint Central to enforce patch management, device control, and endpoint security compliance across user environments
 - Implemented OpManager monitoring to enhance infrastructure visibility, proactively detect issues, and reduce downtime
 - Supported Microsoft 365 migrations, user provisioning, and security configurations (MFA, access control), improving collaboration and system security
 - Delivered consistent L1/L2 IT support services to enterprise clients, resolving hardware, software, network, and access-related issues within SLA expectations
-
