PROFESSIONAL EXPERIENCE

Software Developer Intern

ABC Bank Group – Nairobi, Kenya | Jan 2025 – Present

- Engineered responsive frontends for 3+ internal banking systems using React, Next.js, and TypeScript, improving staff task efficiency by 25%.
- Designed and deployed REST APIs in Django, reducing average API response time by 33% and integrating with 5+ core banking applications.
- Optimized PostgreSQL queries and schema, enhancing data processing speed by 18%.
- Collaborated in Agile sprints with cross-functional teams, accelerating project delivery timelines by 15%.

IT Specialist (Part-time)

Kwale Tech Hub – Kwale, Kenya | Aug 2024 – Present

- Delivered ICT training to 50+ youth and entrepreneurs, improving digital literacy rates in the region.
- Provided IT consulting and technical support, enabling 10+ SMEs to adopt digital tools for business growth.
- Partnered with Kwale County Government to deliver digital skills programs impacting over 200 participants.

Cyber Security Analyst & Ethical Hacker Intern

CFSS Cyber & Forensics Security Solutions – Remote | Aug 2024 – Sep 2024

- Conducted vulnerability assessments and penetration tests, identifying 15+ security flaws and recommending fixes.
- Implemented network monitoring tools to detect and mitigate potential threats in real time.
- Installed and maintained firewalls, encryption tools and access controls to enhance system security posture.

IT Practitioner Intern

Kenya Power – Mombasa, Kenya | May 2022 – Aug 2022

- Installed and spliced fiber optic networks for critical infrastructure, improving connectivity uptime by 20%.
- Configured routers, UPS, switches, and Cisco phones, ensuring uninterrupted service to corporate clients.
- Troubleshoot ICT hardware issues, reducing downtime by 15%.

PROJECTS

Charges Fee Frontend *(Jul 2025 – Present)*

- Built a frontend platform for bank transaction charge approvals, featuring status tracking, channel ID management and fee rate settings.
- Tech Stack: React, TypeScript, TailwindCSS, integrated with Django backend.

License Tracking Renewal System *(Jan 2025 – Jun 2025)*

- Developed a full-stack system to manage license renewals, enabling automated reminders and PDF/Excel report generation.
- Integrated Celery and RabbitMQ for scheduled tasks, improving process efficiency by 40%.

E-commerce Clothing Website *(Sep 2024 – Present)*

- Designed a responsive platform with shopping cart, product filtering and secure payments via Stripe API.
- Tech Stack: Next.js, React, Prisma.

Landing Page for NGO *(Jul 2024)*

- Delivered a mobile-first website for a non-profit, increasing donor sign-up rate by 25%.
- Tools: HTML5, CSS3, JavaScript, Tailwind.

Graphics Projects *(Aug 2024 – Present)*

- Created 20+ branding materials including posters, wedding cards and logos for various clients.
-

EDUCATION

KCA University – Bachelor of Science in Software Development (Computer Software Engineering)
2019 – 2023 | Second Class Honours (Upper Division)

CERTIFICATION

- **Introduction to Career Skills in Software Development** – LinkedIn Learning *(May 2025)*
 - **IBM SkillsBuild for Students** – AFRALTI *(Dec 2021)*
-
