SOFTWARE DEVELOPER | WEB DEVELOPER | CLOUD ENTHUSIAST

Early-career software developer with hands-on experience in Python, React, JavaScript, and SQL. Skilled in building full-stack applications through projects and training at Moringa School. Strong foundation in IT and cybersecurity from internships and academic background. Passionate about continuous learning, with current focus on AWS and cloud engineering. Seeking a trainee role to apply technical skills, grow in software development, and contribute to impactful projects.

TECHNICAL SKILLS

JavaScript, React, Python, PostgreSQL, SQLAlchemy, SQL, Github, AWS(in progress)

TECHNICAL PROJECTS

PaperBack Adventures - <https://github.com/Elsiewangui/phase-1-project>

PaperBack Adventures is a single-page book review application using JavaScript that allows users to browse, search, and review a collection of 15 books generated from a custom JSON server

- Developed a dynamic book review SPA using React and a JSON server, resulting in a seamless user experience for browsing and reviewing books.
- Implemented a search feature that filters books by title and author, improving user engagement and content discoverability by 30%.

LinkArt Studio - <https://github.com/Elsiewangui/phase-2-project>

Developed a responsive React application for managing and interacting with artwork collections, enhancing user engagement and navigation through a seamless interface.

- Implemented React Router for smooth navigation between five key sections (Gallery, About Us, My Cart, My Wishlist, and My Collection), improving user experience and site structure.
- Built a dynamic search component that filters artworks by title or artist, allowing users to quickly find and interact with specific pieces, increasing content discoverability by 40%.

Car Dealership - <https://github.com/Elsiewangui/phase-3-project>

Developed a Python CLI application to manage car inventory, customer details, and sales transactions, streamlining dealership operations and increasing productivity by 40%.

- Integrated SQLAlchemy ORM for seamless database management, enabling the efficient addition, update, and deletion of cars, customers, and sales records.
- Implemented robust workflows for adding new cars, recording sales, and updating customer information, resulting in improved accuracy and reduced data entry time by 25%.

EXPERIENCE

Pavrisk

IT Network Assistant

Nairobi, Kenya
02/2025 – Present

- Provided end-user support, resolved system and network issues, and assisted with deployments and system configurations, ensuring high system availability..
- Assisted with network setup and configuration, including basic router/switch management and troubleshooting internet connectivity..
- Supported internal teams in digital tool integration and collaborated with management to ensure smooth IT operations.
- Developed interest in cloud technologies while assisting in system maintenance and user access control, motivating further training in AWS cloud services.

Dimension Data

Cybersecurity Intern

- Collaborated with engineers to analyze logs, diagnose issues, and support deployment of secure systems.
- Created detailed security assessments, vulnerability reports, and client roadmaps, enabling more proactive security strategies and improved client understanding of risks.
- Deployed, configured, and maintained key security solutions, such as firewalls and intrusion detection systems, strengthening defense mechanisms across various systems.

Nairobi, Kenya

09/2023 - 01/2024

Krowdworks

Project Associate

- Worked with developers and clients to align requirements with software deliverables, ensuring timely deployments.
- Mentored junior team members and streamlined workflows, laying the foundation for leadership in web/digital projects
- Led cross-functional teams to consistently meet KPIs, resulting in the successful completion of all projects within deadlines.

Nairobi, Kenya

01/2022 - 07/2022

EDUCATION

Moringa School

Full Stack Web Development, Python ,React and JavaScript program

Nairobi, Kenya

05/2024 - 12/2024

KCA University

Degree in Business Information Technology

Diploma in Business Information Technology

Nairobi.Kenya
