Professional Summary

I am passionate about Artificial Intelligence and Cybersecurity and have experience in data analysis, mobile development, and information security. I have worked in the field of Technology at Kenya Power and East African Breweries Limited where I gained practical field knowledge. I am eager to learn new skills and technologies and collaborate with other professionals and researchers, where I can contribute to solving real-world problems and creating innovative solutions.

Skills

- | | |
|------------------------------|----------------------------------|
| ▪ Penetration Testing | ▪ Neural Networks |
| ▪ Machine Learning | ▪ Exploratory Data Analysis |
| ▪ SQL and Python Programming | ▪ Mobile Application Development |

Work Experience

Kenya Power, Nairobi (May 2024 - July 2024)

IT Technical Support Intern

- Aided in configuring company devices for secure access to corporate email and networks.
- Monitored network performance and reported any abnormalities to the IT team.

CyberShujaa, Virtual (Sep 2024 - Dec 2024)

Penetration Tester Training

- Developed expertise in legal and compliance requirements while executing and reporting vulnerability assessments, providing actionable recommendations that improved overall security posture.
- Assessed the security of web applications through comprehensive testing, including SQL injection, cross-site scripting, and session hijacking techniques.

EABL, Nairobi (July 2025 - Present)

Digital and Technology Intern

- Troubleshooting of technical Network problems and Configuration Management of Routers
- Accounts management for the system users.
- Server Backups, and users' Personal data Backups.

Education

DAYSTAR UNIVERSITY Athi River

(Physical 2021 - 2025)

Bachelor of Science: Computer Science

CYBERSHUUJAA

(Virtual Sep 2024 - Dec 2024)

Training: Ethical Hacker

Certifications

Certified Ethical Hacker

- Certificate from Cisco
- http://www.credly.com/badges/78105c2c-8379-4ec5-ab5f-b7722aa6e960/public_url

Computer Vision

- Certificate from Kaggle
- <https://www.kaggle.com/learn/certification/kipronorotichfelix/computer-vision>

Data Protection

- Certificate from Strathmore
- <https://certificate.cipit.org/authenticate/4239529437>

Data Analysis

- Certificate from FreeCodeCamp
- [Data Analyst](#)

API Penetration Tester

- Certificate from API Sec University
- [API Penetration Tester](#)

Programming Languages And Frameworks

Python, Advanced

Java, Intermediate

Swift, Intermediate

Flutter, Advanced

Wordpress, Advanced

Projects

Loan Application

In SWIFT programming language with several students I created an analysis tool application to assess the activities in a loan office.

Soil Analysis

I worked on a research using AI to analyse soil distribution based on geographical location and predicting soil type based on the image analysis

Recipe Application

I created a mobile application using Flutter language that gave the user read and write privileges to add their recipe to the application.

Multi-vendor Shoe Application

I created a multi-vendor ecommerce web application handling the entire life cycle . I created this using wordpress

LungLens

LungLens utilizes AI technology to analyze medical imaging (X-rays) and detect conditions like pneumonia, tuberculosis, and COVID-19. [LungLens](#)
