|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Objective</b>                 | To obtain an entry-level IT position in desktop support where I can use my education, technical experience, and strong problem-solving and communication skills to provide reliable IT support and enhance user experiences to help increase productivity and efficiency of the user's function.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Summary of Qualifications</b> | Proficiency in installing, updating and configuring software applications, drivers, and updates on desktop systems. Strong interpersonal skills and customer-centric approach with the ability to provide effective support to end-users.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Experience</b>                | <p><b>Data Entry Specialist Landesa Organization Kenya June 2025</b></p> <ul style="list-style-type: none"><li>• Accurately entered and updated project-related data from physical documents, surveys, and field reports into the organization's database (e.g., Excel, Access, or a custom information system).</li><li>• Performed regular data verification and cleaning exercises to ensure the accuracy, completeness, and consistency of all entered information.</li><li>• Scanned, digitized, and indexed physical records, such as beneficiary forms and legal documents, to create an organized digital archive.</li><li>• Conducted quality control checks on collected data, identifying and flagging errors or inconsistencies for review by project staff.</li><li>• Maintained the integrity and confidentiality of all project and beneficiary data in compliance with organizational policies.</li><li>• Assisted in the compilation of data for the generation of weekly or monthly reports for project monitoring and evaluation (M&amp;E) teams.</li></ul> |

- Organized and maintained physical filing systems for source documents to ensure they were secure and easily retrievable.
- Performed regular backups of the database to prevent data loss.

#### **ICT Intern Kenya Pipeline Company May 2022 - July 2022**

- Respond to user requests for service, troubleshoot problems; i.e. network connectivity, software crashes, and printer malfunctions and help develop solutions.
- Support PC hardware components, desktop operating system software, and application software.
- Installation of ICT equipment such as new computers and peripherals and performed repairs to equipment as needed
- Assist in maintaining inventory records and documentation for equipment.
- Monitor antivirus management console and update and scan computers infected with spyware, adware, and/or viruses.
- Provide backup technical support for the network including router, firewall, and wireless access point, and monitor backup systems and procedures to ensure data security.
- Periodic printer maintenance such as head cleaning and alignment. Re-fill printer toner and cartridges.
- Set up equipment in the office including new accounts and profiles for all users and ensure all new equipment is functional before it is distributed.

#### **ICT Intern Pan Africa Christian (PAC) University January – March 2020**

- Support the IT team in maintaining hardware, software
- Perform software configuration on computers
- Assist with troubleshooting issues and provide technical support.
- Lay cables and wires for networks and ensure that they are in good working order
- Provide backup technical support for network including router, firewall, and wireless access point
- Provide users with ongoing assistance in their information technology problems.

**Education** Degree in Bachelor's in information technology-KCA  
University, Nairobi Kenya  
Certificate in Oracle Cloud Data Management 2022 Foundations  
Certified Associate at Oracle University

**Skills** MICROSOFT WINDOWS 10 AND 7, Visual Basic, Excel, Access  
**Operating Systems**  
**Other Tools**

**Relevant Course Work**

- Computer Application Software
- Network design and Setup
- Computer Networks
- Computer Organization Architecture
- ICT Project Management
