Documentation & Training

Technical Documentation • Knowledge Base Development • User Guidance • Staff Training

WORK EXPERIENCE

Support Desk Agent (Technical Support)

INUA AI

June 2025 – March 2026

- Delivered front-line support across email, chat, and ticketing systems, maintaining high user satisfaction levels
- Diagnosed and resolved issues across user access, software, system performance, and connectivity
- Managed ticket triage and SLA tracking, ensuring timely resolution of all assigned requests
- Built and maintained internal knowledge base, improving team efficiency and reducing resolution time
- Escalated complex issues with detailed documentation, improving accuracy and speed of resolution

Administrative & Project Support Specialist

RWS Group

October 2024 – April 2025

- Managed team schedules and coordinated deadlines across multiple time zones
- Managed tracking systems for 8 concurrent projects, improving visibility of deadlines, deliverables, and performance
- Reduced workflow delays by 30% through improved documentation and structured communication processes
- Served as primary communication link between stakeholders and team, improving clarity and execution speed
- Onboarded and trained new team members, reducing ramp-up time and improving team productivity

Team Lead & Administrative Support

TELUS Digital

July 2023 – August 2024

- Coordinated team schedules, tasks, and deadlines, ensuring consistent delivery across workflows
- Trained and onboarded new team members, reducing onboarding time by 50%
- Managed documentation and workflow processes, improving consistency and reducing errors
- Supported high-volume operations while maintaining strict quality standards

Administrative & Client Support Coordinator

Elo Business Consultancy

January 2019 – May 2023

- Scheduled and coordinated client appointments, aligning availability and priorities
- Managed client communication channels, ensuring timely responses and follow-ups
- Prioritized and handled urgent, time-sensitive requests, improving turnaround efficiency and client satisfaction
- Tracked and followed up on pending requests, ensuring completion and reducing missed or delayed tasks
- Maintained structured records of client interactions, schedules, and service requests for better organization and reference
- Supported document handling and administrative processes, improving accuracy and workflow consistency
- Balanced multiple competing priorities, ensuring smooth operations and effective service delivery

KEY IMPACT

- Reduced workflow delays by 30% through process and documentation improvements
- Maintained high-volume support delivery with consistent response efficiency
- Improved resolution speed by eliminating repeat technical issues
- Reduced onboarding time by 50% through structured training systems
- Supported global teams with reliable, scalable IT support systems
