

Stella Njambi Ndungi

Full stack web developer II mobile developer

+254703173933 | njambindungistella@gmail.com | [LinkedIn](#) | [Github](#) | Kenya

PROFESSIONAL SUMMARY

Dynamic and versatile full stack web and mobile developer with hands-on experience leading and delivering projects across various frameworks including Next.js, React.js, React Native, Node.js, flask, flutter and Django. Proven ability in project management, system design, and API integration, with a strong foundation in database management using PostgreSQL, MongoDB, and MySQL. Skilled in AI integration, digital marketing, and UI/UX design, complemented by solid soft skills in problem-solving, collaboration, and entrepreneurial thinking. I aspire to leverage my technical expertise and leadership skills to build innovative digital solutions that create meaningful impact in businesses and communities.

SKILLS

Technical skills

Programming languages- Javascript,Python,HTML5,CSS3,PHP,SQL

Frameworks & libraries-

react.js,next.js,react native,typescript,flutter,node.js,django and flask.

Databases-postgreSQL,SQLite,Mongodb,oracle,mySQL

Web development-full stack development,RESTful API development,scalable application design

Version control-git

Soft skills

Teamwork and collaboration

Strong communication for impact

Adaptability and continuous learning

Time management and organization

Problem-solving and critical thinking

WORK EXPERIENCE

January 2025-June 2025

Full stack web and mobile developer, Technical Lead ,Product Manager
WitzAfrica - Nairobi

Architected and developed a cross-platform mobile and web ecommerce application using Next.js, React Native, Expo, Node.js, and Express, ensuring clean, modular, and scalable code across both platforms.

Implemented advanced state management and API integration strategies using React Query and Axios, resulting in 40% faster data retrieval and smoother real-time updates within the application.

Optimized backend performance by refactoring Node.js and Express APIs, reducing response times by over 35% through efficient routing, middleware optimization, and query tuning.

Developed and deployed a robust authentication system using JWT,OTP, and OAuth protocols, securing both web and mobile applications and enhancing overall platform security.

September 2024-November 2024

Software developer
Yakwetu -MyMovies.Africa,Nairobi

-Was part of a team that successfully developed and deployed a secure online voting system for the Women in Film Awards Kenya 2025, facilitating over **3,000 secure votes with zero downtime**.

Developed and optimized backend services using **Next.js, React.js, Prisma, and PostgreSQL**, ensuring a scalable and reliable system for high-traffic events.

Streamlined project workflows by implementing **automated testing and continuous integration pipelines**, reducing bug rates by **30% during deployment cycles**.

November 2023-February 2024

Web developer
TakaYetu,Nairobi,Kenya

-Delivered **a full-stack project on a file storage solution**, utilizing frameworks like Next.js ,Node.js and Mongo.db.

-Optimized backend systems, improving API response times by **up to 40%** through query optimization and efficient code structuring.

December 2022 -October 2023

Web developer

Remote,freelance -Upwork,Jobzy

Successfully **designed and developed client projects** across web and mobile platforms, integrating technologies like Next.js, React.js, React Native, and Django.

Developed **RESTful APIs**, enabling seamless data flow and efficient third-party service integration in multiple client applications.

Improved project delivery timelines by **20% through code optimization, reusable components, and modular backend service structures**.

PROJECTS

Zero-to-hero waste management web application

-This was a solo project that aimed to improve the issue of waste management i.e waste reporting and waste collection in Kenya.

-Tech tools:

Frontend- next.js,**backend**-node.js,**database**-neon

-Successfully built an app that integrated AI for waste verification,JWT and Oauth for user roles and authentication,Google Maps API for location ,reward and leaderboard system.

[Github repository](#)

Women in Films Award(WIFA) voting system

-My team and I successfully built the WIFA 2025 voting system to improve accuracy in online vote counts and reduce downtime when voting.The application enabled a seamless voting experience.

-Tech tools:

Frontend- next.js,**backend**-node.js,**database**-postgresql,**ORM**-prisma

M-fish mobile application

-My team and I developed a react native mobile application for sea food ecommerce.

-Tech tools:

Frontend- react native ,**backend**-node.js,**database**-neon

EDUCATION

May 2024-November 2024

Software engineering

Moringa School-Nairobi,Ngong Road

- Full stack web development

September 2020-May 2022

Electrical and Electronics engineering

University of Nairobi, Nairobi,Kenya

- Completed course work in calculus, programming,mechanics,analogue and digital electronics ,electrical circuits and communication skills.

March 2020-May 2020

Computer skills

Esmart college,Kikuyu

- Took a computer package that focused on computer literacy and use of Microsoft tools both practically and theoretically.
- Gained skills in data collection, data entry and arrangement for work environment purposes.

CERTIFICATIONS

May 2024 – July 2024

AI career essentials

ALX, Kenya, Africa

- A programme in AI augmented professional development skills in the digital world.
- Gained relevant skills in integration of AI in personal career fields for more productivity,insights and creativity.

July 2023

Social media marketing

Great Learning Academy,online

- Got relevant skills on how to market products for organizations and self on major social media platforms.

July 2023

Digital marketing

Google skillshop(Google Digital Garage),online

- Involved Search Engine Optimization and Search Engine Marketing as well as various digital platforms marketing.

AWARDS

- 2024** Top 10 students in Software engineering-Moringa School.
- 2024** 5th countrywide in Tecno innovation competition.
- 2023** Certificate in social media marketing.
- 2023** Certificate in digital marketing

REFEREES

Mr.Andrew John

Moringa school, Technical Instructor
