Professional Summary

I am an IT support professional with over eight years of experience helping teams stay productive by keeping systems reliable and easy to use. My work has covered user support, device setup, system administration, and day-to-day troubleshooting across different environments.

I have supported both Windows and Mac users, managed accounts and access, and worked with tools like Microsoft 365 and Google Workspace. I am comfortable handling issues from the moment they are reported through to resolution, and I enjoy finding simple, practical ways to improve how IT support is delivered.

Core Skills

- IT Support (L1 & L2 Helpdesk)
 - Microsoft 365 Administration
 - Microsoft Intune & Endpoint Management
 - Windows & MacOS Support
 - User Account & Access Management (MFA, Permissions)
 - Network Troubleshooting (Routers, Switches, Wi-Fi)
 - IT Security Best Practices
 - Device Setup & Deployment
 - Documentation & User Training
 - IT Asset Management
 - Remote Support Tools
-

Professional Experience

IT Operations Engineer - Zepz (WorldRemit & Sendwave)

Aug 2022 – March 2025 (Remote)

- Provided day-to-day IT support to teams across multiple locations, both remotely and on-site when needed.
- Troubleshoot hardware, software, access, and connectivity issues to restore normal operations quickly.

- Managed user accounts, permissions, and authentication across systems including Google Workspace and internal platforms.
 - Supported onboarding and offboarding by setting up devices and system access.
 - Worked closely with other technical teams to escalate and resolve more complex issues.
 - Maintained documentation and helped improve support processes over time.
-

IT Operations Manager – Sendwave(International Money Remittance)

Nov 2021 – Aug 2022 (**Remote**)

- Oversaw internal IT support and ensured systems and devices were working reliably.
 - Managed user access, system setup, and day-to-day support requests.
 - Supported onboarding, device configuration, and user readiness.
 - Helped maintain IT processes and basic security practices across the environment.
-

IT Helpdesk Engineer - Wananchi Group

March 2018 – March 2022 (**Hybrid**)

- Provided first- and second-level support for hardware, software, and network issues.
 - Installed and configured user devices and applications.
 - Troubleshoot connectivity and system performance issues.
 - Logged and tracked incidents and ensured timely resolution.
-

Service Desk Analyst - M-KOPA

June 2015 – Dec 2017 (**On-site**)

- Provided frontline IT support for users and systems.
 - Monitored systems and network performance using PRTG, Zabbix, and Grafana.
 - Responded to alerts and escalated issues early to reduce downtime.
 - Assisted in troubleshooting performance and connectivity problems.
-

Zendesk

Endpoint Management Tools (Kandji, Rippling, Intune)

Working Approach

I take a practical and reliable approach to IT support. I focus on responding quickly, keeping users informed, and following through until issues are fully resolved. I am also comfortable working independently and managing multiple requests while maintaining good organization and documentation.
