PROFESSIONAL PROFILE

Software Developer | Cyber Security

Innovative and results-driven Software Developer with a strong foundation in JavaScript, TypeScript and modern frameworks including React.js, Next.js and Node.js, complemented by certifications in **Cybersecurity (Cisco Ethical Hacker, Cyber Shujaa)** and practical experience in **applied AI for software engineering**. Skilled in developing scalable, user-centric web applications while integrating **AI-driven solutions** to enhance functionality and performance.

Additionally, experienced in **network and IT infrastructure support**, including resolving network connectivity issues and ensuring reliable system operations. Demonstrates strong problem-solving abilities, cybersecurity awareness, and adaptability to emerging technologies. Experienced in Agile environments, collaborating effectively with cross-functional teams, and delivering high-quality solutions that align with business goals.

TECHNICAL SKILLS

- I. **Front-End Development:** Proficient in HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, and Shadcn/UI for building responsive and modern user interfaces.
- II. **Back-End Development:** Skilled in Node.js, Express.js, and Nest.js for designing scalable APIs and server-side applications.
- III. **Databases:** Experienced with relational and NoSQL databases including PostgreSQL and MongoDB.
- IV. **Artificial Intelligence:** Hands-on experience with AI SDKs, applied AI in software engineering, and integrating generative AI into applications.
- V. **Cybersecurity & Ethical Hacking:** Knowledge of penetration testing, vulnerability scanning, and secure application development practices gained through Cisco Ethical Hacker certification.
- VI. **Networking & IT Infrastructure Support:** Practical experience in troubleshooting network connectivity issues to support reliable organizational IT operations.
- VII. **Programming Languages:** Strong command of JavaScript, TypeScript, and Python for software development and scripting.
- VIII. **Version Control & Collaboration:** Proficient in Git, GitHub, and Agile workflows for team-based development and project delivery.

PROFESSIONAL EXPERIENCE

- I. **Network Management Intern**
Kenya Revenue Authority (KRA) (May 2025 - Present)

- Resolved network-related issues for staff, ensuring reliable connectivity and minimal downtime.
- Performed Ethernet cable crimping and established connections across computers, ports, and switches to maintain efficient network operations.
- Troubleshooted and resolved IP phone network issues, restoring seamless communication services.

II. **Software Development Attachee**

TradeFiti (October 2024 – December 2024)

- Delivered responsive and scalable features using Next.js, Tailwind CSS, Shadcn UI, and Supabase, enhancing overall user experience across devices.
- Contributed to the development of a full-stack web application, focusing on performance optimization and user-centric design.
- Collaborated in Agile sprints and participated in code reviews, ensuring high-quality deliverables within tight deadlines.

III. **ICT Attachee**

Wanunuzi Sacco - under Kenya Institute of Supplies Management (June 2023 – September 2023)

- Partnered with the IT team to resolve technical issues, ensuring uninterrupted web service operations.
- Conducted code reviews and provided recommendations, contributing to maintainable and scalable solutions.
- Enhanced digital service delivery by integrating user-friendly features that improved member satisfaction.

PROJECTS

I. **FetchFast** - fetchfast.vercel.app *(In Progress)*

A restaurant management and online ordering system where restaurant owners can register, manage their businesses, and customers can browse and order from the restaurants.

- **Role:** Full-Stack Developer
- **Technologies:** Next.js, MongoDB, Tailwind CSS
- Developed the core restaurant registration and ordering workflow.
- Implemented responsive UI for seamless customer browsing.
- Currently enhancing usability by integrating advanced order management and delivery features.

II. **InternKonnekt** - internkonnekt.netlify.app *(In Progress)*

A career platform connecting students and graduates with internship opportunities, improving access to early career resources.

- **Role:** Full-Stack Developer
- **Technologies:** React.js, Nest.js, MongoDB, Tailwind CSS
- Designed a user-friendly interface and integrated secure authentication.
- Built core search functionality for internships.
- Currently enhancing usability by integrating user-friendly features that improved member satisfaction.

III. **VirtuStay** - virtustay.vercel.app (*In Progress*)

An Airbnb-like system for property listing, booking, and virtual tours, enabling users to explore and reserve accommodations online.

- **Role:** Full-Stack Developer
- **Technologies:** Next.js, Supabase, Tailwind CSS, Shadcn UI
- Designed and developed the project's landing page with a responsive and modern interface.
- Implemented initial project structure and layout to support future expansion.
- Currently planning integration of booking workflows and virtual property tour functionality.

EDUCATION

- I. ***Bachelor of Science Applied Computer Science (2020 - 2024)*** - Chuka University
Second Class Upper Division
- II. ***Kenya Certificate of Secondary Education (2016 - 2019)*** - Nyeri High School
B+

CERTIFICATIONS

- I. Cisco Ethical Hacker - Cisco (2025)
- II. Cyber Shujaa Cisco Ethical Hacker - Cyber Shujaa (2025)
