

# LEWIS SAWE

## IT Support Specialist | Systems Administrator

Nairobi, Kenya | [lewis.sawe@gmail.com](mailto:lewis.sawe@gmail.com) | +254 101 236 915 | [LinkedIn](#) | [GitHub](#)

## SUMMARY

IT professional who provides end-to-end technical support, manages enterprise infrastructure, and resolves issues across Windows, Linux, and cloud environments. Has supported diverse client environments from educational institutions to enterprise organizations, and is comfortable training users and documenting solutions.

## EXPERIENCE

### Network and Systems Administrator

**Eloho** | May 2024 - Present

- Provide enterprise-level IT support covering network infrastructure, servers, and end-user devices
- Manage user accounts, Active Directory, and Microsoft 365 environments for the organization
- Run technical training sessions to improve staff productivity and reduce recurring support tickets
- Maintained IT asset inventory and coordinated hardware procurement and lifecycle replacements

### IT Support Technician

**Elpris LTD, Eldoret, Kenya** | January 2022 - April 2024

- Delivered end-to-end IT support for enterprise and SMB clients, resolving hardware and software issues
- Managed client relationships and maintained high satisfaction through responsive, clear communication
- Supported educational institutions with device setup, network configuration, and user training

### Monitoring and Evaluation Officer

**Kenya Red Cross Society** | June 2020 - December 2021

- Managed program databases and IT systems supporting humanitarian operations
- Trained field staff on digital tools, data collection platforms, and reporting procedures
- Maintained data integrity and access controls across program systems
