Embu County, Kenya

I'm a passionate educator and tech support professional with a unique background in both English Literature and Information Technology. As a teacher, I inspired students to explore language, literature, and digital literacy, creating engaging lessons that bridged classic texts and modern tools. In my IT support role, I provide practical solutions to technical issues, ensuring smooth operations and empowering users with the confidence to navigate digital systems. I thrive at the intersection of education and technology, and I'm always eager to learn.

Experience

Technical IT Support – Kenya Power and Lighting Company (KPLC)

Part time | Jan 2025 – Present

Provide assistance to users by troubleshooting hardware, software, and network issues.

Installs and configures systems, ensuring smooth operations, and maintaining technical documentation.

I also offer guidance and training to help users resolve common technical problems independently.

High School Teacher – Greensteds Schools

Contract / Aug 2024 – April 2025

I also taught computer literacy, coding fundamentals, and digital tools to enhance their academic performance in Computer Units.

As an English Literature teacher, I taught students to analyze and appreciate a wide range of literary texts from various periods and genres.

Assessed their understanding through essays, presentations, and exams.

Freelance Technical & Academic Writer – Upwork

Remote | 2022– Present

Take orders in engineering, academic research, and technical documentation.

Maintains a 5-star rating through prompt delivery and client satisfaction.

Specializes in reports on academic research on literature and IT courses.

Middle School Teacher – Good Shepherd School

Contract | Feb 2021 – Nov 2021

I taught English Language and Literature to high school students, focusing on building their reading comprehension, essay writing, and literary analysis skills.

Created lesson plans aligned with the curriculum, prepared students for standardized exams, and provided individualized support where needed.

I also organized class discussions and activities.

Education

Postgraduate Diploma in Education

Open University of Kenya

Graduated 2024

Majored in IT and English Literature, I studied core courses in educational psychology, curriculum development, and instructional methods.

Learnt subject-specific teaching approaches for both IT and English, focusing on effective classroom delivery and assessment.

Additionally, I completed a teaching practice where I applied these skills in a real school setting.

Diploma of Science in Information Technology

Technical University of Mombasa - Kenya
Graduated 2022

All my core units included foundational knowledge in computing, programming, networking, systems, and data. I gained a solid foundation in programming, networking, and database management.

Learned to design software, manage systems, and ensure cybersecurity across digital platforms. Through hands-on projects, I developed practical skills in solving real-world tech challenges.

English Literature Diploma

Cademy – Online | 2020

Gained knowledge on how to analyze texts critically, explore literary themes and techniques, and understand the historical and cultural contexts of major English literature movements.

Through self-paced video lessons and tutor support, I gained a deeper appreciation for literature and improved my ability to teach and explain complex literary concepts.

Soft Skills

Strong Communication & Presentation.

Team Collaboration & Mentorship.

Analytical Thinking & Problem Solving.

Time Management & Multitasking.
