PROFESSIONAL SUMMARY

Experienced IT Support Specialist and Junior Software Developer with 3 years of expertise providing IT support, software development, and system maintenance in diverse environments. Skilled in designing responsive web applications, managing databases, and implementing robust cybersecurity practices. Proficient in building scalable RESTful APIs and server-side logic using ASP.NET Core and C#, with experience in integrating both internal and external systems. Adept at working with cross-functional teams, defining API specifications, and participating in Agile development processes including Sprint Planning and task tracking. Strong in DevOps tools and cloud platforms, with a proven record of enhancing organizational efficiency through scalable IT solutions. Seeking to leverage a strong technical background and problem-solving skills in a challenging IT role to support operational excellence.

SKILLS

IT Support, Hardware/Software Troubleshooting, Networking, Cloud Architecture, VOIP Systems, Full Stack Development (Laravel, React, PHP, JavaScript), Backend Development (ASP.NET Core, C#, RESTful APIs, SOAP Services, Microservices Architecture), Authentication & Security (OAuth, JWT Tokens), DevOps & Containerization (Docker, Kubernetes, Git, CI/CD Pipelines, Github), Cloud Platforms (Azure, AWS), Database Management (MySQL, MS SQL Server, Oracle, MongoDB), Cybersecurity (Threat Investigation, Incident Response), Programming Languages (C, C++, C#, VB.NET, Java, Python), Automation & Testing (Jest, Cypress, Selenium, PHPUnit), API Management Solutions, Research Skills, Leadership, Problem-Solving, Communication Skills, Time Management.

EXPERIENCE

IT Assistant Officer

City Eye Hospital | Nairobi, Kenya | *August 2022 – Present*

Roles and Responsibilities:

- Designed and developed the company website using Laravel and Bootstrap technologies, achieving a 35% increase in visitor traffic through enhanced SEO and improved Google search rankings.
- Ensured a seamless user experience by optimizing response times, usability, and accessibility, improving engagement metrics by 40%.

- Integrated advanced security features, reducing potential vulnerabilities by 50%, and adhering to best practices for secure web development.
- Delivered a visually appealing and intuitive design, earning positive feedback from 90% of stakeholders and end-users.
- Installed, configured, and managed servers, routers, and firewalls, maintaining a robust and secure LAN/WAN infrastructure.
- Conducted regular system audits and network diagnostics, reducing connectivity issues by 20%.
- Implemented VOIP systems to enhance communication across departments, reducing telecommunication costs by 25%.
- Provided tier-1 and tier-2 IT support for 100+ users, addressing hardware and software issues promptly, achieving a 95% satisfaction rate.
- Resolved critical incidents such as server crashes and database errors, minimizing disruptions and ensuring business continuity.
- Optimized MySQL databases to improve query performance, achieving a 30% reduction in report generation time.
- Developed automated scripts to back up sensitive patient and organizational data, ensuring compliance with data protection standards.
- Conducted security assessments and implemented measures to mitigate vulnerabilities, reducing potential threats by 50%.
- Trained staff on cybersecurity best practices, achieving a 100% adoption rate for secure password protocols and phishing detection.
- Authored comprehensive IT policies, user guides, and standard operating procedures (SOPs) for non-technical staff, improving system usability and reducing repetitive support requests.
- Maintained an IT asset inventory and lifecycle management system, improving accountability and resource allocation.
- Partnered with cross-departmental teams to identify IT-related pain points and provide tailored solutions.
- Supervised and mentored junior IT staff and interns, fostering skill development and improved service delivery.
- Leveraged data analytics tools to create interactive dashboards for performance monitoring, empowering leadership with actionable insights.
- Integrated reporting modules into the web application for real-time monitoring of operational KPIs.

AI Data Trainer (Coding Expert)

Remotasks Company | *Remote* | *July 2023 – February 2024*

Roles and Responsibilities:

- Annotated and reviewed datasets for machine learning models, ensuring 98% data accuracy.
- Developed Python scripts to automate repetitive data processing tasks, improving task efficiency by 35%.
- Conducted quality checks on AI training outputs, ensuring adherence to project guidelines.

- Collaborated with AI specialists to refine algorithms, contributing to improved model accuracy.
- Coordinated with global teams to meet project deadlines, consistently delivering high-quality data on schedule.

Freelancing Web Developer

Self-Employed | *Nairobi, Kenya* | *June 2020 – Present*

Roles and Responsibilities:

- Designed and developed custom web solutions for diverse clients using Laravel, WordPress, and PHP, ensuring high performance and scalability.
- Enhanced website functionality and design for a local NGO, resulting in a 30% increase in user engagement.
- Conducted performance testing and optimization, improving load times by 25% on average.
- Integrated responsive designs using Bootstrap and Tailwind CSS, ensuring seamless functionality across devices.
- Leveraged Git for version control and collaborated with clients to ensure technical requirements were met.

ICT Intern

Ministry of Devolution and ASALs | *Nairobi, Kenya* | *June 2021 – September 2021*

Roles and Responsibilities:

- Performed comprehensive hardware and software troubleshooting to ensure optimal functionality across all systems.
- Conducted repairs and upgrades of IT equipment, extending the lifespan of devices by 20%.
- Configured and maintained secure LAN/WAN networks and internet systems, improving overall connectivity and reducing downtime by 15%.
- Carried out routine maintenance of communication systems, ensuring seamless collaboration within the organization.
- Implemented robust security measures to protect sensitive data and systems from unauthorized access.
- Automated the processes for collecting user requirements, streamlining workflows and reducing manual tasks by 20%.
- Prepared and utilized peripheral ICT accessories for data collection and presentation, ensuring accurate and reliable outputs.
- Created visualization dashboards for data analysis and reporting, enabling quick and informed decision-making.
- Conducted training sessions for staff on software usage and IT equipment, achieving a 30% increase in user proficiency.
- Provided ongoing support for new systems and devices, ensuring seamless integration into daily operations.

- Assisted in analyzing departmental system requirements and contributed to the development of customized IT solutions.
- Collaborated on process improvement projects, enhancing operational efficiency and reducing redundant tasks.

Internal Attachment

Jomo Kenyatta University of Agriculture and Technology | *January 2020 – March 2020*

Roles and Responsibilities:

- Performed general computer maintenance, ensuring smooth operation of devices and systems.
- Developed Android applications, gaining hands-on experience in mobile application development.
- Configured internet connectivity for personal computers, enhancing user access to online resources.
- Installed and managed Linux and Windows operating systems, improving system versatility and performance.
- Provided technical support to users, resolving hardware and software issues, and improving user satisfaction.
- Documented system configurations, maintenance tasks, and user support, ensuring effective troubleshooting and future reference.

ICT Intern

National Treasury and Planning | Nairobi, Kenya | *April 2018 – June 2018*

Roles and Responsibilities:

- Configured internet on PCs to facilitate seamless connectivity across departments.
 - Provided LAN and WAN management, maintaining secure and efficient network operations.
 - Performed system backups and restorations, ensuring data safety and recovery readiness.
 - Delivered user support, resolving IT-related issues efficiently and maintaining a 95% satisfaction rate.
 - Assisted in the installation, updating, and maintenance of antivirus software, enhancing system security.
 - Played an integral role in maintaining and updating the company's website, improving its functionality and usability.
 - Supported regular security audits and implemented updates to safeguard sensitive information.
 - Performed regular system backups to ensure the integrity of critical data. Assisted in data restoration during system failures, reducing recovery times by **15%**.
-

EDUCATION

Bachelor of Science in Information Technology

Jomo Kenyatta University of Agriculture and Technology | *Graduated: 2022* | Second Class Honors

Diploma in Information Technology

Jomo Kenyatta University of Agriculture and Technology | *Graduated: 2018* | Credit

CERTIFICATIONS AND TRAININGS

- **Google Data Analytics Professional Certificate (2025)** – Coursera
Skills Earned: Data Aggregation, Data Analytics, Data Cleaning, Data Visualization, Data Ethics
 - **Cybersecurity and Emerging Technologies Awareness Training (2024)** – ICT Authority, Ministry of Information Communication and Technology
Skills Earned: Cybersecurity fundamentals, threat detection and prevention, and incident response and management.
 - **Fire Safety Training Certification (2024)**– Fire Safety Professionals Kenya
Skills Earned: Fire prevention strategies and risk management.
 - **Auroitech Digital Solutions Foundations (2024)**– Auroitech Digital Solutions
Skills Earned: Networking troubleshooting, SQL server, and cloud architecture basics.
 - **Cybersecurity Fundamentals and Staff Training (2023)** – Great Learning Academy
Skills Earned: Cybersecurity principles, data protection, and secure system practices.
 - **IBM Cybersecurity Certifications (2022)** – IBM SkillsBuild
Skills Earned: Cybersecurity principles and incident response fundamentals.
-

PROJECTS

- **HealthFitnessApp (React Native Mobile App):** Developed a cross-platform fitness and health platform using React Native and TypeScript for frontend, integrated REST APIs, M-Pesa Daraja payment gateway, real-time features, user dashboards, and backend services.
- **Pesapal Junior Dev Challenge '26 – In-Memory RDBMS (2026):** Built a simple relational database from scratch in Python for Pesapal's regional challenge, featuring SQL-like queries, CRUD operations, primary/unique keys, basic hash indexing, INNER JOIN, interactive REPL, and a Flask web app for CRUD demo.
- **Decentralized App (DApp) for NFT Marketplace (2025):** Built a web3 application using React, TypeScript, Node.js, GraphQL, and Solidity on Ethereum, integrating wallets for onchain/offchain experiences to simulate NFT trading and access perks.
- **EyeU Kenya Hospital Website (2025):** Developed a full-stack hospital management website using Laravel, Statamic CMS, React, and MySQL, featuring patient appointment

booking system, contact form management, and email notifications for enhanced patient engagement.

- **City Eye Hospital Website (2023):** Developed a dynamic, user-friendly full-stack website with React frontend, Node.js backend, and PostgreSQL database to enhance patient engagement, provide hospital information, and streamline bookings.
 - **IoT-Based Car Rental System (2022):** Designed a web application with real-time vehicle tracking APIs, incorporating security protocols similar to web3 authentication.
 - **User Support Management System (2018):** Built a desktop app with C# to manage IT support workflows, optimized for efficiency.
-

OTHER ENGAGEMENTS

- **Data Entry Clerk**, Ministry of Interior and Coordination of National Government | 2019
Entered and validated large volumes of data, ensuring accuracy and timely submission of reports.
 - **Polling/Counting Clerk**, Independent Electoral and Boundaries Commission (IEBC) |
General Elections, August 2017 and 2022: Supported election operations, including voter identification, ballot counting, and results reporting, maintaining adherence to strict procedural guidelines.
