PROFESSIONAL SUMMARY

Versatile and goal-oriented professional with 1+ years of experience across software development, UI/UX design, IT support, teaching, and digital marketing. Skilled in frontend technologies, user-centered design, research, and communication. Strong academic foundation in software engineering and a proven ability to deliver solutions, mentor learners, and support cross-functional teams.

Major Career Highlights;

- Built as an accessibility checker tool to automate manual web accessibility audits, the project was a simple prototype to showcase the importance of automating and improving the process.
- In partnership with Safaricom Foundation, I took part in the delivery of 25 desks to Kahawa Wendani Primary School.
- Mentored and taught students in robotics, self-driving car technology, and software fundamentals, fostering digital literacy and STEM interest among young learners.

Areas of Expertise

Programming Languages:

- HTML/CSS
- JavaScript (React)
- PHP (Laravel)
- MySQL
- Database Design

Design & User Experience:

- UI/UX Design
- Figma
- Technical SEO
- Web Analytics
- Accessibility (WCAG Compliance)
- Technical Documentation

Tools & Technology:

- Linux
- Git
- WordPress

PROFESSIONAL & ACADEMIC QUALIFICATIONS

Bachelor of Science (Software Engineering) | Kisii University | 2024

Certificate in Digital Marketing | Amity Global Institute | 2020

Kenya Certificate of Secondary Education | Kagumo High School | 2019

Certifications;

- AWS Machine Learning Foundations

WORK EXPERIENCE

DIGIFUNZI

TECHNICAL MENTOR | 08/2024 – 09/2024

Overall Purpose: Responsible for delivering age-appropriate coding education to children aged 5-17, creating engaging learning experiences that make programming concepts accessible and fun while managing classroom dynamics effectively.

- Facilitated age-appropriate coding lessons for children aged 5-17, adapting teaching methods to different learning styles and skill levels.
- Taught fundamental programming concepts using visual programming languages (like Scratch, PictoBlox) and introductory text-based coding.
- Managed classroom dynamics with 10-15 students per session, ensuring productive learning environments and maintaining student engagement.
- Designed and led coding games, challenges, and mini-projects to make programming concepts accessible and fun for young learners.

USHAHIDI

SOFTWARE ENGINEER INTERN | 05/2023 – 08/2023

Overall Purpose: Responsible for implementing web accessibility standards in Angular applications and contributing to technical documentation while participating in code reviews and best practices in a production environment.

- Implemented WCAG standards in Angular applications, making technology more inclusive and accessible to users with disabilities.
- Assisted in writing clear technical documentation that helped both current and future team members understand complex system functionalities.
- Thrived in a mentorship-rich environment, actively seeking feedback and contributing to team knowledge-sharing sessions.
- Actively participated in code reviews and applied industry best practices, helping maintain high standards in a production environment.
- Built as an accessibility checker tool to automate the manual web accessibility audits, the project was a simple prototype to showcase the importance of automating and improving the process.

KAMILIMU

MENTEE | 08/2021 – 05/2022

Overall Purpose: Responsible for completing an intensive 8-month structured mentorship program focused on Python programming and data analysis, while collaborating on innovation projects and developing presentation skills for technical audiences.

- Earned my spot as one of the 38 mentees from 13 universities in Kenya to undertake an 8 months structured mentorship program.
- Learned Python and NumPy, learning to transform raw data into meaningful insights through hands-on projects and real-world applications
- Placed in the top 20 out of 67 projects nationwide in the Red Bull Basement Innovation Competition - a moment that validated months of hard work.
- Collaborated with team members to deliver Red Bull innovation project and machine learning project within tight schedules.
- Developed the skill to translate complex data findings into clear, compelling presentations for diverse audiences

MANTRA IDEAS

REMOTE DIGITAL MARKETING AND IT PROFESSIONAL | 11/2021 – 01/2022

Overall Purpose: Responsible for building and maintaining custom WordPress websites while implementing SEO strategies and performance optimizations to enhance client site functionality and search rankings.

- Built and maintained custom WordPress sites, implementing security updates and performance optimizations that improved site loading speeds.
- Monitored website performance metrics and user engagement data to drive strategic improvements.
- Conducted in-depth site audits and implemented SEO strategies that enhanced search rankings for client websites.
- Rapidly adapted to new technologies and tools, consistently meeting tight projects.

NAFISIKA TRUST
COMMUNICATIONS AND RESEARCH INTERN | 10/2021 – 11/2021

Overall Purpose: Responsible for coordinating stakeholder webinars, transforming data into actionable reports, and managing digital content creation across WordPress and social media platforms to support organizational communication goals.

- Successfully planned and executed webinars for stakeholders, coordinating technical setup and participant engagement.
- Transformed raw data into clear, actionable reports using Microsoft Office, supporting organizational decision-making.
- Created and published blog content on WordPress while managing social media presence across multiple platforms.
- Actively participated in strategic meetings, gaining insights into training program development and organizational priorities.
- Identified and implemented communication best practices that improved internal and external messaging efficiency.

PACEMAKER INTERNATIONAL
TEACHER ASSISTANT | 01/2020 – 03/2020

Overall Purpose: Responsible for supporting classroom instruction and student learning through lesson preparation, tutoring assistance, and educational demonstrations while coordinating with teachers to enhance the overall learning experience.

- In partnership with Safaricom Foundation, I took part in the delivery of 25 desks to Kahawa Wendani Primary School.
- Discussed assigned duties with classroom teachers in order to coordinate instructional efforts.
- Assisted in preparation of lesson materials, bulletin board displays, exhibits, equipment, and demonstrations.
- Presented subject matter to students under the direction and guidance of teachers, using lectures, discussions, or supervised role-playing methods.
- Tutored and assisted children individually or in small groups in order to help them master assignments and to reinforce learning concepts presented by teachers.
- Supervised students in classrooms and school yards and conducted demonstrations to teach such skills as sports, dancing, and handicrafts.
