SOFTWARE ENGINEER TRAINEE – BQI TECH

Adaptable and technically proficient Software Engineer with a keen interest in backend development, offering expertise in full-stack web development. Skilled in building scalable web applications using JavaScript, React.js, Python (Flask, FastAPI), and experienced in designing robust RESTful APIs. Strong proficiency in database management (MySQL, PostgreSQL), API integration, and maintaining system reliability through automation, preventive maintenance, and effective troubleshooting. Brings a collaborative mindset, clear documentation practices, and a strong focus on aligning technical solutions with business objectives.

Key Areas of Qualification:

- ◆ **Application Development**
- ◆ **Project management & Documentation**
- ◆ **Database Management**
- ◆ **Technical Support & Troubleshooting**
- ◆ **Unit testing & Integration testing**
- ◆ **System Implementation/Automation**
- ◆ **RESTful APIs & Integration**
- ◆ **System Administration and Enhancement**
- ◆ **Process Optimization**
- ◆ **Software configuration**

Technical Skills:

Front- end: JavaScript, TypeScript, React.js, Next.js

Back- end: Python (Flask, FastApi), Node.js

Databases: MySQL, PostgreSQL, SQLite

CI/CD & DevOps: GitHub actions, Docker

Dev Tools & Platforms: VS Code, Postman, Chrome DevTools

Authentication & Authorization: JWT, OAuth2

Concepts: RESTful APIs, CRUD, Object - Oriented Programming (OOP)

PROJECTS

Admin Library Management System

- Designed and implemented a foundational admin-focused [lms web](#) to manage books, users, and transactions records. Built core CRUD functionalities for books and member data, with role-based access for administrators. Tech stack – JavaScript, React.js, Python, flask and SQLite.

Online Learning Platform Development

- Pivotal in the development of an [online learning platform](#) offering various courses and career development events using interactive JavaScript - React.js for frontend; implemented CRUD functionality with Python - flask server and PostgreSQL database.

Breelary App Development

- Key member of a team that developed an [breelary App](#) for product displays, using React.js to fetch data from an API and implementing Bootstrap for styling and responsiveness.

EDUCATION & TRAINING

AWS Cloud Practitioner Essentials – Aws Skill Builder (2025)

Software Engineering Training – Moringa School (2023 – 2024)

Course Work: HTML, CSS, GIT, Front End Development, Front End Web Applications, Back End Development, Back End Web APIs

Bachelor of Science in Economics – Masinde Muliro University of Science & Technology (2015– 2019)
