Skills: campaign strategy, audience engagement, analytics, brand growth, graphic Design

Education

Bachelor of Science in Information Technology

Kibabii University, Kenya

2022- (Expected Graduation: 2025/11/10)

An undergraduate program covering computer systems, software development, networking, and information management. Focuses on programming, databases, cyber security, and web/mobile app development, user research. Equips with technical and problem-solving skills for ICT solutions

Relevant Coursework: Software Development, Database Management, Computer Networks, Data Structures and Algorithms, system administration Machine Learning.

Skills

- **Programming Languages:** Java, Python, & Kotlin
- **Database Management:** SQL, MySQL
- **Android Development:** Kotlin, Jetpack Compose, Firebase, MVVM architecture
- **UI/UX Design:** Figma, Adobe XD, Wire framing, Prototyping
- **Front-end Development:** HTML, CSS, JavaScript
- **Version Control:** Git, GitHub

Certifications & Courses

- Google UX Design Professional Certificate
- Android Developer Nano degree - Udacity
- Cyber security Fundamentals

Projects

Crop Disease Detection & Farm Management App

- Created a concept and prototype for an AI-based app for farmers.
- Implemented image recognition for early disease detection and farm management tips an offline functionality App.

User Authentication App

- Developed a secure login/signup authentication app using Kotlin and Jetpack Compose.
- Implemented Firebase for authentication and real-time data storage.
- Integrated modern UI design principles for an intuitive user experience.

Awards & Achievements

- Best Mobile App Prototype – Kibabii University Hackathon 2025 (Finalist)
- Led a 3-member team in building a functional Android app prototype within 48 hours.

Languages

- English – Fluent
- Swahili – Fluent

Hobbies & Interests

- Mobile App Development
- AI & Machine Learning Research
- Participating in Hackathons
- Tech Blogging & Tutorials
