

Michael Vukasu Limisi

Nairobi, Kenya | +254 757 661 054 | michaelibron1@gmail.com

PROFESSIONAL SUMMARY

A motivated and skilled Data Science student with hands-on experience in machine learning, natural language processing (NLP), data mining, data processing and data visualization. Proficient in Python, SQL, and Spark, with a proven ability to develop and implement models that transform complex datasets into actionable insights. Seeking to apply technical and analytical skills to support data-driven decision-making.

EDUCATION

University Education

BSc in Data Science and Analytics | Expected Graduation: Sep 2026 United States International University - Africa (USIU-Africa), Nairobi, Kenya
Relevant Coursework: Machine Learning, Statistical Analysis, Big Data Technologies (Hadoop, Spark), Artificial Intelligence, Deep Learning

Secondary Education

Alliance High School, Nairobi, Kenya | 2016 - 2019
Kenya Certificate of Secondary Education (KCSE): A-

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, R
- **ML & AI:** Machine Learning, Deep Learning, Natural Language Processing (NLP), Transformer Models, Generative Adversarial Networks (GANs)
- **Big Data Technologies:** Apache Spark, Hadoop
- **Data Visualization:** Power BI
- **Tools & Frameworks:** PyTorch, Hugging Face, Scikit-learn, YOLO, Faster R-CNN
- **Languages:** English (Fluent), Swahili (Fluent), French (Beginner)

PROJECTS

- **Movie Collaborative Filtering Recommendation System | Python, Scikit-learn**
Developed a recommendation system using collaborative filtering that achieved a Mean Absolute Error (MAE) of 0.8604 on a 1-5 rating scale.
Link: [Movie Collaborative Filtering Recommendation System](#)
- **Unsupervised Learning Image Clustering | Python, PyTorch, Sim-CLR**
Compared K-means clustering with a combined K-means + SimCLR approach; the hybrid model achieved a superior clustering accuracy of 82.73%.
Link: [Unsupervised Learning Image Clustering](#)
- **Object Detection Model Comparison | Python, YOLO-v8, Faster R-CNN**
Implemented and evaluated YOLO-v8 and Faster R-CNN models for object detection; YOLO-v8 demonstrated superior performance across precision, recall, and mAP metrics.
Link: [Object Detection Model Comparison](#)
- **Handwritten Text Recognition with TrOCR | Python, Hugging Face Transformers**
Fine-tuned a small TrOCR model for handwritten text recognition, achieving a Character Error Rate (CER) of <30%.
Link: [Handwritten Text Recognition with TrOCR](#)
- **African Art Generation using GANs | Python, PyTorch**
Designed and trained a Generative Adversarial Network (GAN) to create unique African art, evaluated with a Fréchet Inception Distance (FID) score of 344.2310.
Link: [African Art Generation using GANs](#)

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

- **Founding Member | Japanese Cultural Club, Alliance High School | 2017 - 2019:** Co-founded the Japanese Cultural Club to promote cultural exchange and understanding within the student body.
- **Vice-Captain | Table Tennis Team, Alliance High School | 2017 - 2019:** As Vice-Captain of the Table Tennis team, organized training sessions, managed team activities, and fostered a collaborative competitive environment.
- **Administrator, School Choir, Alliance High School | 2017 - 2019:** Organized rehearsals and coordinated successful public performances.
- **Hobbies:** Puzzle solving, traveling, reading, hiking.
