

SAMMY KITHINJI RIUNGU

Contact: 0759667357

Email: Kithinjiriungu5@gmail.com

PROFILE

I am a self-motivated, adaptable, and committed technology professional with great drive for hard work, teamwork, and results. I am proficient in execution and quick in assimilation of new ideas and concepts. I have great passion in vast information technology fields including but not limited to networking, programming, and database management systems.

As a skilled Full stack developer, I have explored various technology stacks including MERN stack, ANDROID, BIGDATA/ML and bits of cloud architecture. My dedication and curiosity have driven me to experiment with multiple paths and continuously improve my technical knowledge.

CAREER OBJECTIVE

To thrive in an environment that values hard work, creativity, teamwork, embraces technology and provides opportunities for career and personal development.

EDUCATION

September 2016-2022:

TAITA TAVETA UNIVERSITY

Bachelor of science in Information Technology

2011-201

KIRIANI BOYS HIGH SCHOOL

KCSE -Mean grade of B+ (Plus)

QUALIFICATIONS

August 2021 – December 2021:

Google Africa Developer Scholarship

Task: Mobile application development

Skills: Associate Android developer

March to September: Google professional certification (COURSERA)

Skill :IT Automation with python

2021-2022: HELLO TRACTOR

Software Engineer intern.

2022-2024 MALTHER WINJE AUTOMATION

Consultant software developer

January 2025 to Date MENTRLST

KEY ACHIEVEMENT AND RESPONSIBILITIES

Mentrlst

Asst Project manager/Mentor

- Assistant team lead in developing and mentoring community based open-source software solutions.
- Mentor and lead community manager responsible for the management of both inbound engineers and community developers.
