EXPERIENCE

ICT INTERN – United States International University Africa

01/2024 – 04/2024

- Installed and configured computer hardware, operating systems, printers, and applications to ensure reliable system performance.
- Maintained service contracts for IT equipment, including Linux systems, to minimize downtime and ensure timely servicing.
- Provided multimedia support for classrooms and events, ensuring proper setup and smooth operation of AV tools.
- Delivered technical support to staff and clients in person, online, and via phone, resolving issues efficiently and professionally.
- Troubleshoot landline and network issues across campus to maintain consistent connectivity and minimize disruptions.
- Assisted with server configuration and user account management to support secure and organized system access.

EDUCATION

STRATHMORE UNIVERSITY

2021 -

BACHELOR OF BUSINESS AND INFORMATION TECHNOLOGY

AUTOMATION ASSISTANT – Kibo School

05/2024 – 07/2024

- Utilized no-code and low-code automation tools to streamline and optimize business operations across various departments.
- Collaborated closely with cross-functional teams to identify operational challenges and designed creative, tech-enabled solutions tailored to their needs.
- Developed clear and comprehensive documentation for each automated workflow to ensure maintainability and knowledge sharing across the organization.

ICT INTERN – International Livestock Research Institute

02/2025 –

- Provided front-line ICT support by managing service desk calls, assisting users directly, and assigning tickets to appropriate technicians based on issue category.
- Handled walk-in support requests, diagnosing and resolving hardware issues, and offered remote assistance using TeamViewer for users across campus.
- Managed and tracked support tickets through the ServiceDesk platform to ensure timely resolution and clear communication.
- Developed Python-based tools to automate and streamline internal processes such as user recertification, contributing to improved team efficiency and service delivery.
