Summary

Detail-oriented professional with a strong interest in AI and multimedia data. Proven ability to produce high-quality, clear audio content and perform meticulous data annotation. Seeking to apply my skills in a remote contract role to support the development of next-generation multimodal AI systems.

Relevant Experience

Freelance Audio Contributor | Remote *February 2023 - Present*

- Recorded and produced high-quality voice samples for various projects, ensuring clarity and natural tone.
- Annotated audio data, identifying key characteristics such as emotion, tone, and context.
- Adhered to strict project guidelines and deadlines, demonstrating strong organizational skills and attention to detail.

Data Entry and Quality Analyst | *Company Name (e.g., a local tech firm)* | Nairobi, Kenya *August 2021 - January 2023*

- Managed and processed large datasets, ensuring accuracy and consistency.
 - Identified and corrected errors in data entries, maintaining a high standard of data integrity.
 - Collaborated with a team to refine data collection processes and improve overall efficiency.
-

Skills

- Audio Production:** Proficient in audio recording techniques; familiar with editing software like Audacity.
- Data Annotation:** Experienced in categorizing and labeling multimedia data with high precision.

- **Communication:** Excellent verbal and written communication skills, with a clear and articulate voice.
 - **Technical:** Strong computer literacy, including proficiency with Microsoft Office Suite and cloud-based collaboration tools.
 - **Attention to Detail:** Meticulous and detail-oriented, with a focus on producing error-free work.
-

Education

Bachelor of Arts in Communications | *University of Nairobi Graduated: June 2021*

- Focused on mass media and digital communication, gaining a solid understanding of content creation and delivery.
