PROFILE

System Administration and IT Support specialist with 3+ years' experience in Linux-based systems, cloud platforms, database management, and user access control across NGO, corporate, and public sector environments. Skilled in system monitoring, security compliance, change management, and documentation. Adept at coordinating with developers to deploy and maintain applications, manage role-based security, and ensure uptime in high-demand environments. Passionate about secure, scalable systems for mission-driven and growth-focused organizations.

WORK EXPERIENCE

- **Kenya National Farmers Federation(KENAFF)** JUNE2025- PRESENT
ICT Assistant
 - Administered user accounts, access rights, and compliance records for 10K+ stakeholders.
 - Monitored ICT infrastructure uptime and implemented security protocols to prevent unauthorized access.
 - Developed and updated technical documentation for systems and configurations.
 - Coordinated with developers to troubleshoot and update digital service platforms.
- **Rubis Eldoret Service Station** August 2023 - April 2024
Assistant Manager
 - Managed IoT-driven monitoring systems for operational and safety data, improving incident response times by 30%.
 - Oversaw IT compliance and change management processes for safety and environmental standards.
 - Maintained asset and process documentation for audits, ensuring 100% compliance.
- **Rivatex Textile Company** May 2023 - July 2023
IT Attaché
 - Performed Linux and Windows system administration, applying patches and updates.
 - Configured and maintained IoT-enabled CCTV systems for production monitoring.
 - Supported database backup routines and disaster recovery readiness.
